Dear Speaker Tucker,

I am sending this email to let you know that as a active, voting citizen of New Orleans, I oppose the immediate upcoming legislation that will cause New Orleans to lose more than the minimum share of representatives from the Louisiana legislature based on population loss. Especially since we all know that that population loss is a temporary affect largely due to Katrina and will rebound significantly each year. New Orleans brings in the majority of the revenue and is often in competition with the rest of the state for funding. We don't get our fair share and look like the step child and hardly like the pride of Louisiana. Truly we are not, yet we should be. The State of Louisiana benefits greatly if we would unite to make this the World-Class City that she deserves to be.

Respectfully,

Marcia Bent-Henry
