New Llano, La. 71461

House & Governmental Affairs Committee

This letter is to inform the above committee that I highly oppose the way you have encumber the townships of Leesville and New Llano into the draft 1B- District No. 25. I feel we are a rural township and our needs and interests would not be the same as the needs and interests in Rapides parish. Our area representatives currently and in the past are individuals that have a vested interest in our local communities. They have worked hard to assure the voices of our citizens' are heard. I feel the changes to the district would take away our voice in the State government and it would fall on deaf ears.

Leesville and New Llano should continue to be in the area that have similar communities like Rosepine, Anacoco, Hornbeck.

Sincerely,

  
Teresa Hall
