Subject: Redistricting Terrytown

We believe it is vitally important to the representation of the Terrytown community that it remain in a single district and not be divided between 2 representative districts.

Terrytown is a very viable, thriving, longtime community, rich in heritage and a sense of community. It has been represented in the past both as a split and as a single unit, and it works much better as a single unit, and should remain that way always.

We hope that you will do your best to keep Terrytown's representation in the legislature as a single unit/community.

**Sincerely,
Your Citizens – and Proud Terrytown Residents –
Mike & Julie Bordenave**
