My name is Robert Tyler and I am Vice President of the Peoples's Promise a social justice organization in Shreveport, La. I am writing this to voice my strong opposition to the current districting proposal. It disenfranchises African Americans and is against the what America stands for. This type of gerrymandering is destructive to an already volatile political climate. We must be fair in our representation regardless of political parties. The way this is set up offers black ppl little to no chance of being represented adequately. The maps are contorted to make it impossible for a true battle of ideas with the best candidate winning. I hope that in good faith we can reconsider this type of rigging the vote in order to keep America the great democracy that the founders set this country up to be.
