Good afternoon,

My name is Carlos Pollard Jr., and after viewing the many sessions via livestream I have a few requests for the state legislature. As a young professional in Louisiana I urge you that the time is now to do what is right. Another 10 years will be too late. I am urging you to pass bills on both floors that include an increase in majority minority districts on all levels: BESE, PSC, Supreme Court, State House and State Senate, and Congress. The numbers indicate and show that it's possible to increase minority districts, the population shows that Louisiana is blacker and browner. Please allow minorities to have fair representation in our state that we love dearly.

In service,

--
