Redistricting Roadshow - New Orleans-
Travis London statement

I think Redistricting should be excuted and more importantly in a fair manor. The state have changed and some districts have unfair representation due to outdated data. This cause much politcal tyranny. Because of of unfair redistricting, Donaldsonville became the No. 2 worse city in Louisana while I have relocated from a town I loved for so many decades and thought I would retire at to Morgan City, which I am currently adapting to.
