RE: Proposed House Redistricting Plan

**Introduction**

The Power Coalition is pleased to submit this proposed House redistricting plan for the state of Louisiana (Plan A3). The plan was developed adhering to federal and state redistricting criteria and guidelines. The criteria that were used to develop the House plan can be found in Appendix A.

One of the objectives of this plan was to maintain current district configurations. However, due to population shifts during the decade, some districts were altered significantly. Specifically, HD5 was moved from the northwest portion of the state to the Orleans Parish area of the state to compensate for population changes. That said, many districts were able to maintain their existing configuration.

**House Plan Supporting Documents**

Supporting maps and statistical data reports for the plan can be found in Appendices B through D. The documents include:

**Table 1 – Supporting Documentation for Proposed House Plan**

Appendix	Document/Report	Description
Appendix A	Redistricting Criteria	The redistricting criteria for the state
Appendix B	Statewide Map	Statewide map
Appendix C	TTL, VAP, CVAP	Total Population Voting Age Population, Citizen Voting Age Population
Appendix C	Contiguity	The number of noncontiguous parts for each district
Appendix C	Compactness	Measurements of compactness report
Appendix C	Political Subdivision	Political Subdivision county and VTD splits
Appendix C	County Components	County portion for each district
Appendix C	VTD/Precinct Components	VTDs/Precincts contained with each district
Appendix C	COI – City Splits	Community of Interest - City splits
Appendix D	District Zoom Maps	Zoom maps of each House District

## Majority Black District Comparison

The proposed House plan has 29 majority Black House districts (using AP BVAP and BCVP)<sup>1</sup>. This amount is the same as the Current plan.

## Comparative Redistricting Criteria Analysis of the Proposed House Plan and the Current Plan

The proposed House plan performs better than the Current Plan using several redistricting criteria. The proposed House plan performs equal or better in 6 of 6 criteria (see Table 2). Specifically, the House plan has five criteria that are better than the Current plans and one criterion (contiguity) that is equal.

The six criteria that were compared included: Equal Population (one-person-one-vote), contiguity, compactness, county & VTD/precinct<sup>2</sup> splits (political subdivision splits), and city splits (communities of interest).

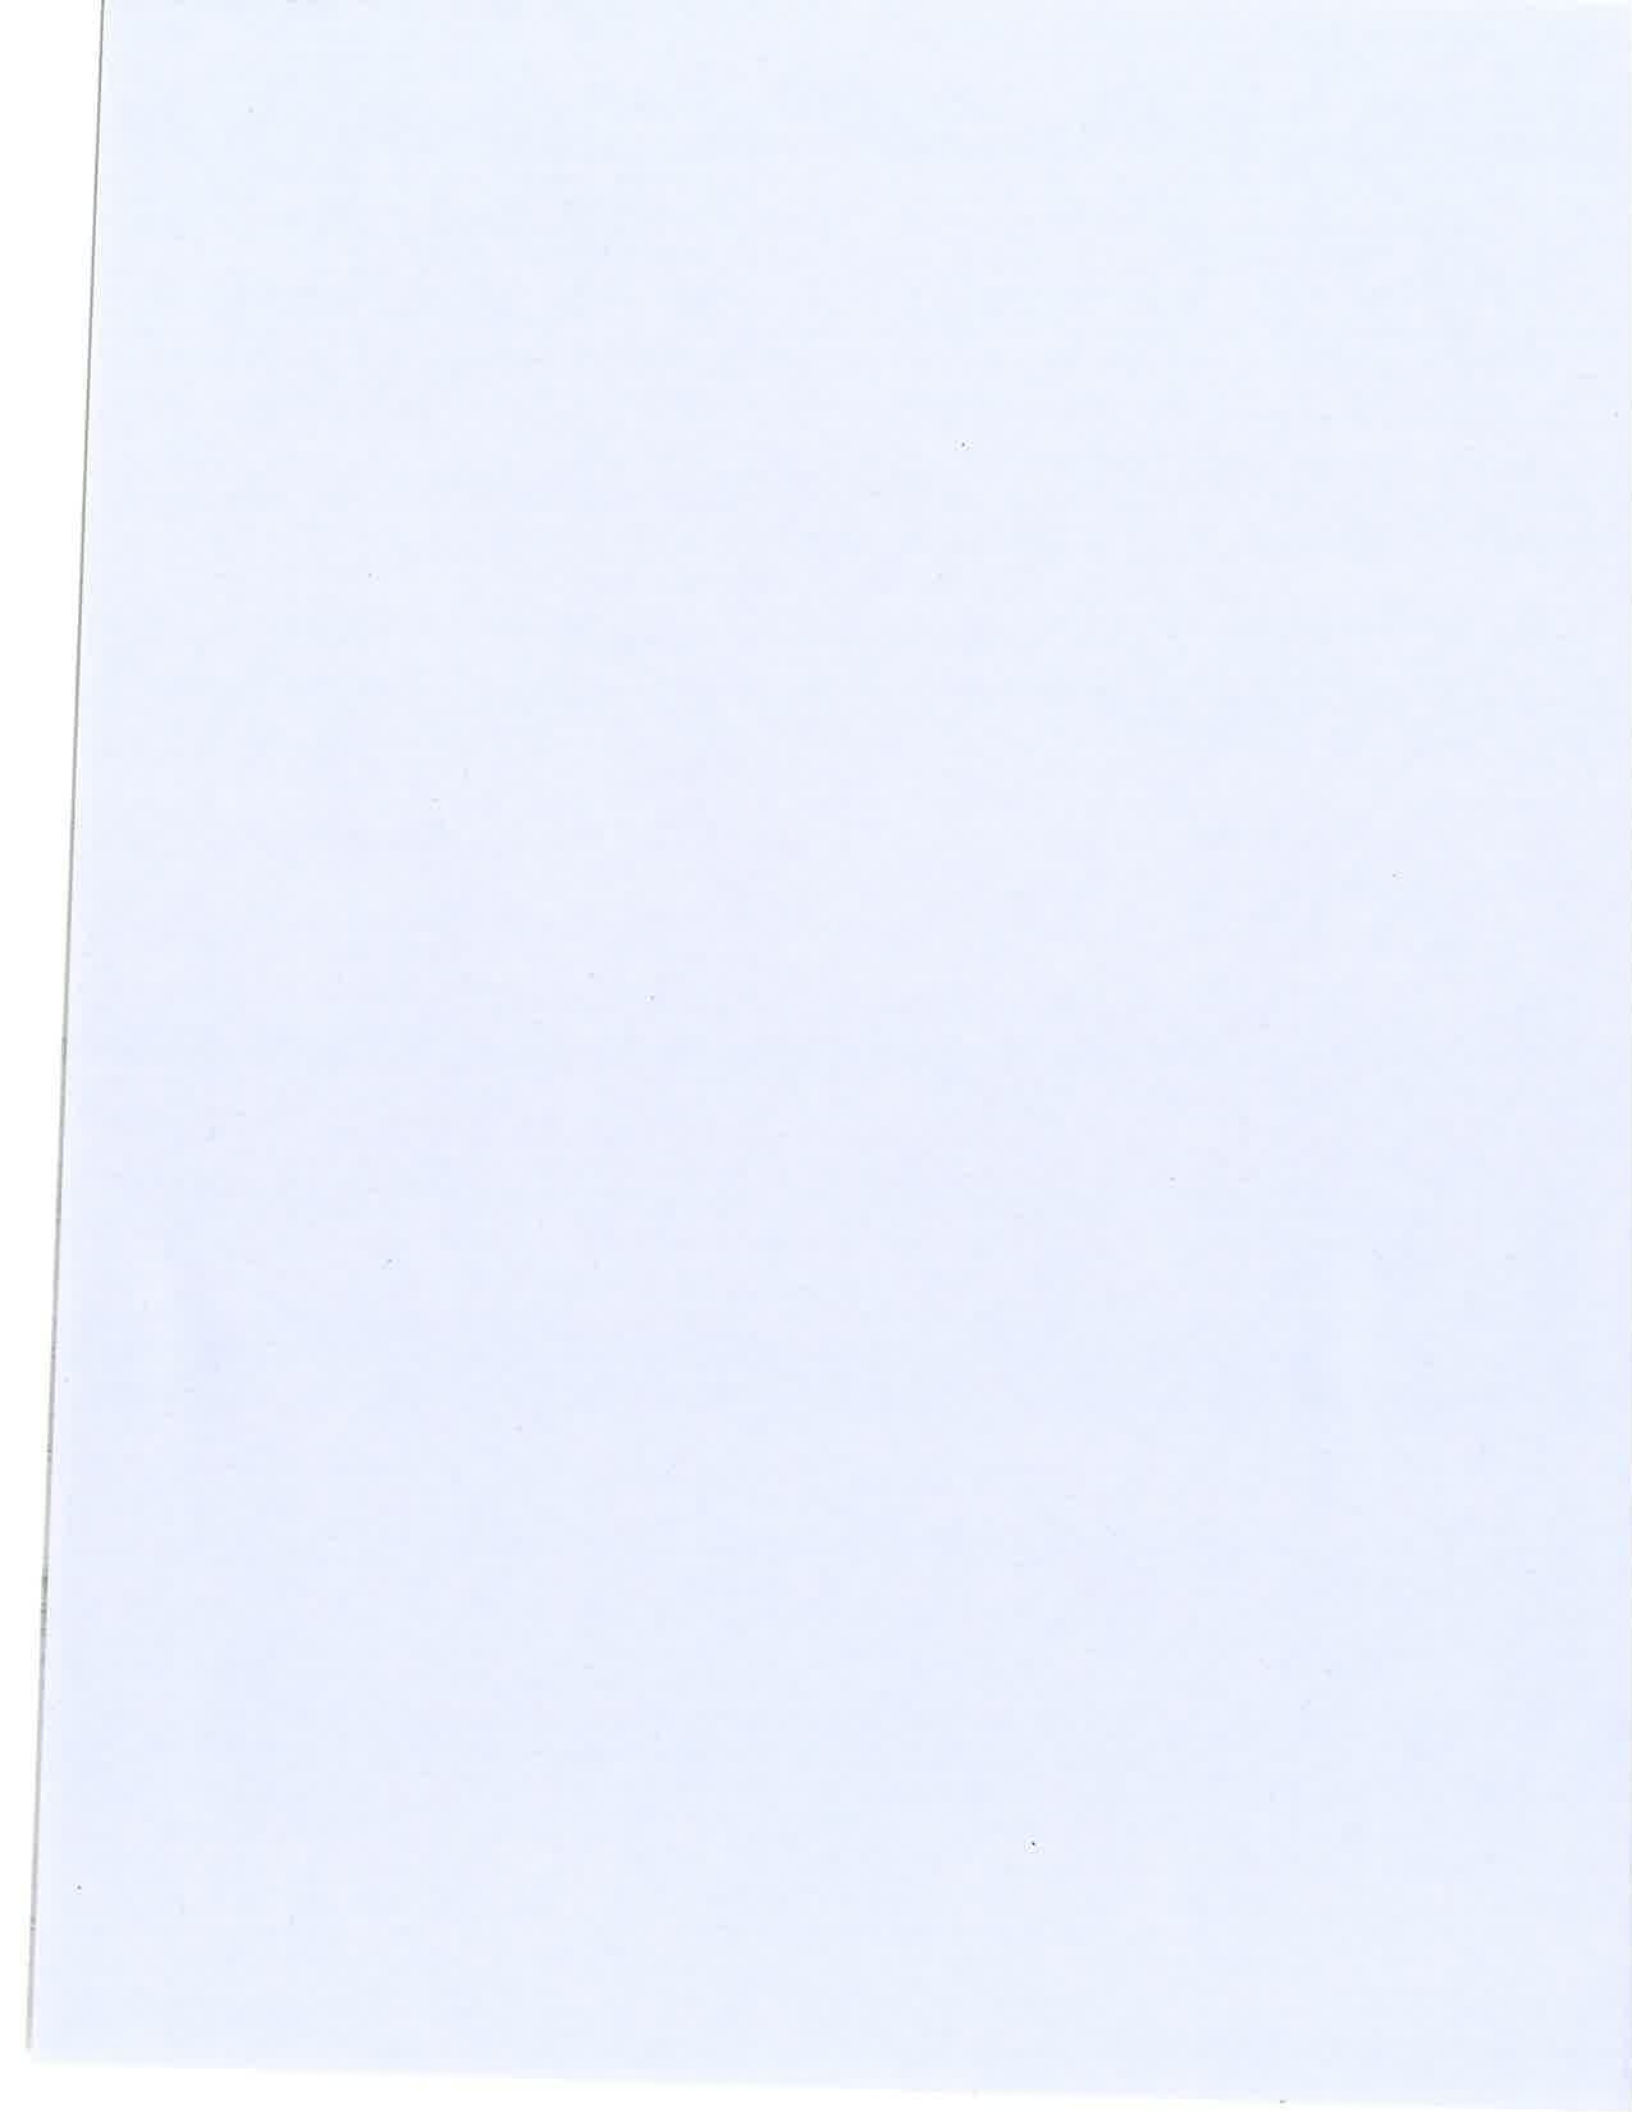

**Table 2 - LA House Plan A3 and Current Plan Redistricting Criteria Comparison**

Criteria	Statewide House Plan A3	Current Plan
Equal Population	9.84%	53.56% (9.89% using 2010 data)
Contiguity	Y	Y
Compactness	Reock, PP, Convex Hull .39, .27, .71	Reock, PP, Convex Hull .41, .26, .70
County Splits	4	47
VTD Splits	109	163
City Splits	114	117

Source: House Statewide Plan A3 and Current plans Maptitude for Redistricting reports

<sup>1</sup> AP BVAP refers to "Any Part" Black Voting Age Population. This includes in person in the decennial survey that is above the age of 18 and select Black single race or Black in addition to any other race. BCVP refers to Black Citizen Voting Age Population which includes those person who are citizens of the US and are above the age of 18. The AP BVAP comes from the decennial census while the BCVP comes from the American Community Survey (ACS).

<sup>2</sup> VTDs are similar to precincts, however, VTDs are generated using census blocks and are created by the Census Bureau. Most state's use VTDs when developing statewide legislative plans.

**Appendix A**  
**Redistricting Criteria**

**Louisiana**  
**Proposed Draft Redistricting Plans**  
**Redistricting Criteria & Description Sheet**

**Redistricting Criteria**

All plans were developed using the Joint Rule No. 21. Redistricting criteria. A summary version of the criteria includes:

- A. To promote the development of constitutionally and legally acceptable redistricting plans, the Legislature of Louisiana adopts the criteria contained in this Joint Rule, declaring the same to constitute minimally acceptable criteria for consideration of redistricting plans in the manner specified in this Joint Rule.
- B. Each redistricting plan submitted for consideration shall comply with the Equal Protection Clause of the Fourteenth Amendment and the Fifteenth Amendment to the U.S. Constitution; Section 2 of the Voting Rights Act of 1965, as amended; and all other applicable federal and state laws.
- C. Each redistricting plan submitted for consideration shall provide that each district within the plan is composed of contiguous geography.
- D. In addition to the criteria specified in Paragraphs B, C, G, H, I, and J of this Joint Rule, the minimally acceptable criteria for consideration of a redistricting plan for the House of Representatives, Senate, Public Service Commission, and Board of Elementary and Secondary Education shall be as follows:
- (1) The plan shall provide for single-member districts.
  - (2) The plan shall provide for districts that are substantially equal in population. Therefore, under no circumstances shall any plan be considered if the plan has an absolute deviation of population which exceeds plus or minus five percent of the ideal district population.
  - (3) The plan shall be a whole plan which assigns all of the geographies of the state.
  - (4) Due consideration shall be given to traditional district alignments to the extent practicable.
- E. Pertains to Congressional Districts
- F. Pertains to Supreme Court Districts
- G.(1) To the extent practicable, each district within a redistricting plan submitted for consideration shall contain whole election precincts as those are represented as Voting Districts (VTDs) in the most recent Census Redistricting TIGER/Line Shapefiles for the State of Louisiana which corresponds to the P.L. 94-171 data released by the United States Bureau of the Census for the decade in which the redistricting is to occur. However, if the redistricting plan is submitted after the year in which the legislature is required by Article III, Section 6, of the Constitution of Louisiana to reapportion, then to the extent practicable, the redistricting plan submitted for consideration shall contain whole election precincts as those are represented as VTDs as validated through the data verification program of the House and Senate in the most recent Shapefiles made available on the website of the legislature.
- (2) If a VTD must be divided, it shall be divided into as few districts as practicable using a visible census tabulation boundary or boundaries.
- H. All redistricting plans shall respect the established boundaries of parishes, municipalities, and other political subdivisions and natural geography of this state to the extent practicable. However, this criterion is subordinate to and shall not be used to undermine the maintenance of communities of interest within the same district to the extent practicable.
- I. The most recent P.L. 94-171 data released by the United States Bureau of the Census, as validated through the data verification program of the House and Senate, shall be the population data used to establish and for evaluation of proposed redistricting plans.

## Supporting Document Descriptions

### Maps

#### Statewide/District Zoom Maps

The statewide map shows all districts within the state of Louisiana. Included is an inset map for East Baton Rouge and Orleans Parishes. District maps that show a zoom of each priority district.

### Statistical Data Reports

#### Population Summary

Two population summary reports are included. One report contains Voting Age Population (VAP) and Citizen Voting Age Population (CVAP). This report contains the following fields: Population, Deviation (Deviation from the ideal population), Dev% (percentage of deviation from the ideal population), Hispanic (Hispanic Origin), White (NH\_Wht), and Any Part<sup>1</sup> Black (AP\_Blck), Hispanic VAP (H18+\_Pop), White VAP (NH18+\_Wht), and Any Part Black VAP (18+\_AP\_Blck). Also included in this report are 2019 ACS CVAP data for each district including: Latino CVAP (LatCVAP19), White CVAP (WhtCVAP19), and Black CVAP (BlkCVAP19).

#### Contiguity

Provides the number of separated (noncontiguous) parts for each district.

#### Compactness

Provides three compactness measures that quantify the irregular shape of the district. Reock, Polsby Popper, and Convex Hull.

#### Political Subdivision Splits between Districts

Includes the parishes and Voting Tabulation Districts (VTDs). VTDs are similar to precincts and are built using census blocks. The report includes the parishes and VTDs that are split and the portion of the population contained within each district.

#### Plan Components – Counties

Lists all counties (in whole and in part) contained within each district. The report includes total population and major races/ethnicities of the Hispanic/Latino (Hispanic\_Origin), White (NH\_Wht – Not Hispanic), and AP Black (AP\_Blck – Any Part Black).

#### Plan Components – VTD/Precincts

Lists all VTDs/Precincts contained within each district. The report includes the total population and major races/ethnicities of the Hispanic/Latino (Hispanic\_Origin), White (NH\_Wht – Not Hispanic), and AP Black (AP\_Blck – Any Part Black).

---

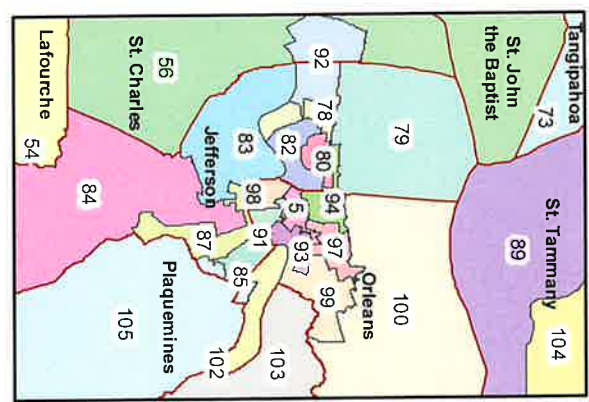

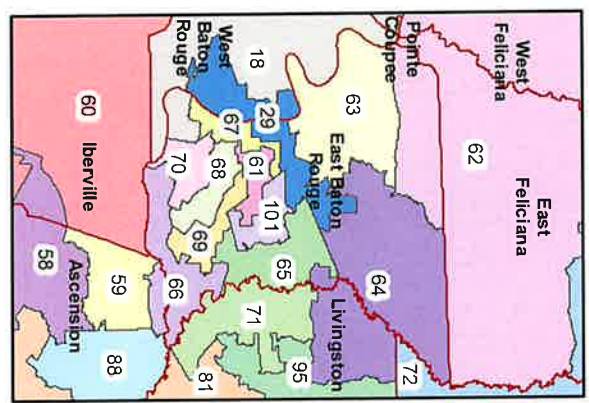

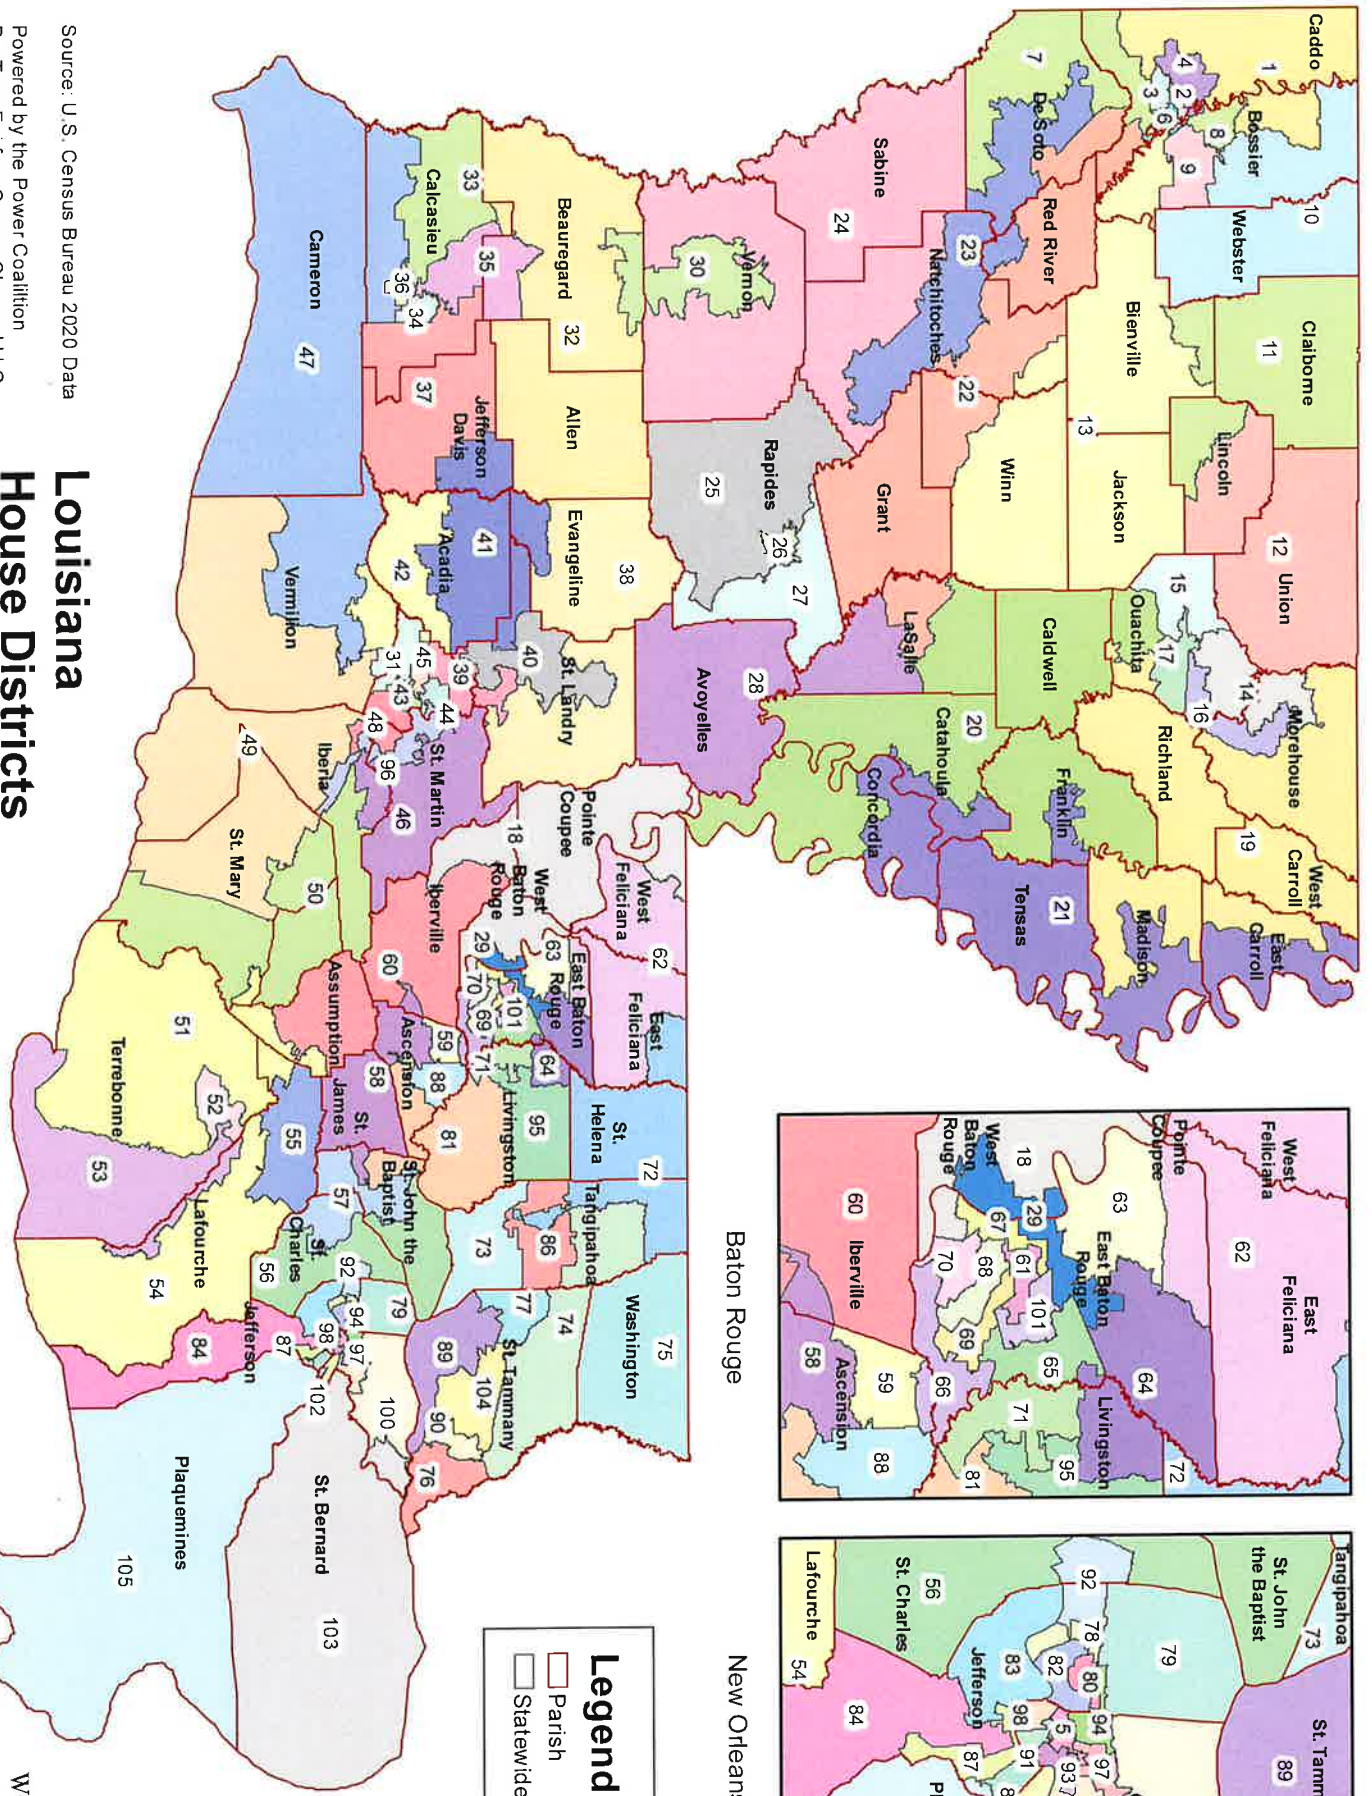

<sup>111</sup> “Any Part” includes all persons who selected, on the decennial survey, a particular race regardless of whether it was alone or in combination with other racial groups. For instance, Any Part Black contains all persons who only select Black plus those that selected Black plus another race (e.g. Black and White; Black, White, and Asian, etc.)

## Measures of Compactness Summary

- Reock** The measure is always between 0 and 1, with 1 being the most compact.
- Polisby-Popper** The measure is always between 0 and 1, with 1 being the most compact.
- Area / Convex Hull** The measure is always between 0 and 1, with 1 being the most compact.

## Political Subdivision Splits Between Districts

Wednesday, January 19, 2022

1:38 PM

Number of subdivisions not split:

County	19
Voting District	3,431

Number of subdivisions split into more than one district:

County	45
Voting District	109

Number of splits involving no population:

County	0
Voting District	73

**Split Counts**

*County*

- Cases where an area is split among 2 Districts: 17
- Cases where an area is split among 3 Districts: 9
- Cases where an area is split among 4 Districts: 7
- Cases where an area is split among 5 Districts: 3
- Cases where an area is split among 6 Districts: 2
- Cases where an area is split among 7 Districts: 2
- Cases where an area is split among 8 Districts: 2
- Cases where an area is split among 11 Districts: 2
- Cases where an area is split among 13 Districts: 1

*Voting District*

- Cases where an area is split among 2 Districts: 133
- Cases where an area is split among 3 Districts: 1
