To House & Senate Governmental Affairs Committee

Gasper and Mel Schiro asked me to email you on their behalf since they do not own a computer or email.

Orleans is most all State Senators are Blacks with Cameron Henry (White) with only 10 precincts, which this does not properly represent New Orleans, which is only 53% Black and 47% NonBlack (White, Asian, Hispanic). This definitely does not reflect a true racial representation of Orleans and see it as reverse discrimination. The City should have at least 3 White serve a State Senator to reflect the true racial breakdown of its population.

Gasper J. Schiro
