Dear Committee Members,

I am a constituent in New Orleans and am writing to you regarding your important work in redistricting based on the 2020 census. We are currently one of the most gerrymandered states in the nation and that is to our shame and detriment. The redistricting you do this year must be done equitably, on the basis of population and not with an eye toward "safe" districts or diluting minority voices. Districts drawn with farcical boundaries will ultimately harm Louisiana for the benefit of a few career politicians.

Please ensure that all of our voices and our votes count. Please draw district lines in a way that is rational and encourages candidates for office to have to consider all of the residents of their district. We want a political system and a government that we can be proud of; please help by making sure that we don't disenfranchise voters with poorly drawn, partisan districts.

Thank you,
Jennifer O'Brien-Brown
New Orleans, 70122
