Chairman Stefanski, Chairwoman Hewitt and Members of the Committee,

My name is Linda S Doyle, and I have lived in Metairie for over 30 years. I am a constituent of United States Representative Steve Scalise. I am a Physical Therapist, homeowner, wife, mother, and grandmother. I am involved in, and volunteer at many local organizations.

I am requesting fairness and equity in the redistricting process. Since the population only grew by 2.74% in the past 10 years, common sense says no major changes are needed to comply with the Justice Department's rules.

Since the Obama Justice Department approved of the boundaries of the 6 Districts 10 years ago from the 2010 Census, not much has changed. The population in Four of the six Districts remain within ideal range. The population in District 4 is 6.2% smaller than ideal range and the population in District 6 is 5.2% larger than ideal range. These districts can easily be tweaked for compliance.

In addition, the Cook Partisan Voting Index shows that the current Congressional Districts are extremely balanced politically.

Please do not try to fix something that is not broken.

Thank you.
