Good Afternoon,

I am writing in regards to Louisiana's ongoing redistricting process.

This is a great opportunity to amplify our citizens' voices. When Louisianians feel represented by elected officials who work for our best interests, it will strengthen our state and our democracy.

Therefore, I'm calling for districts to be drawn geographically to reflect populations with similar regional interests. No more gerrymandering tactics that dilute representation for racial and political minorities (looking at you, current District #2).

Thank you for taking the time to listen. Thank you for working to create fair and equitable districts.

Sincerely,
Rachel Marsh
