Hello,

I am a constituent in New Orleans and it is important to me that any redistricting occurring in this wonderful state be equitable and done only to serve the best interest of all people of Louisiana. We all have a right to feel that our vote and our voice count and I know in the past redistricting has been a tool to disenfranchise groups for the gain of other groups. Let's stop that kind of political practice and restore faith in our systems by keeping the districts divided in a way that anyone could look at and say, "that makes a lot of sense, there's no funny business happening on this map to try to silence certain groups. Good job, government!" And then let the people use their votes equitably. Thank you so much for taking the time to listen.

Have a good day and know that this issue really matters to so many people in this state,

Rebecca Williams
