I am a resident and homeowner of New Orleans East, as well as President of an economic development focus group, and my comments regarding redistricting include requests for maps to be drawn equitably, fairly representing the population of the voters within that district, who have every right to have input and a choice in their representation. Drawing maps that promote gerrymandering is unacceptable and does not allow the voters in a particular district to have a voice and a choice that adequately represents their interests, particularly in matters of quality of life and sustainable economic development. FAIR and EQUITABLE MAPS!!!!  
Thank you.
