Good morning,

My name is Ryan Gomez and it would be my honor to submit a proposed State Senate plan for this current redistricting cycle. Currently, I am a geospatial data scientist who works on demography and redistricting nationally. I feel very blessed that I am able to do this from my home in New Orleans.

This is the first of three plans.

This first plan aims to rebalance seats with roughly the same locations and incumbents. Whole parishes, old district lines and natural boundaries like highways and rivers are given the greatest priority. A good district is one that is competitive and easily be described in a sentence or two.

I hope this is the correct way to submit descriptions and block equivalent CSV assignment files. This map was originally published at <https://davesredistricting.org/join/4516dafe-fed0-4278-97d3-d4a422c7516f>.

Thank you for your attention. I'm sure my plans will save you effort and acrimony. It would mean the world to me if these plans were adopted.

Warm regards,
Ryan Gomez

Louisiana State Senate Plan Gomez Proposed 1A

Submitted by Ryan Gomez, New Orleans, LA 70115

- Each geography in this statewide State Senate plan is assigned to a seat
- Each of the 39 Senate districts are contiguous
- The deviation between the Senate districts ranges between -4.93 to +4.92% of the ideal target 119,430.
- The 13 districts that follow are minority-majority districts, in descending order of minority VAP% (from *davesredistricting.org*)
 - **District 15** represents the northern suburbs of Baton Rouge.
 - VAP Minority: 70.7% VAP Black: 60.1%
 - **District 3** represents New Orleans East, Gentilly and St. Bernard Parish.
 - VAP Minority: 69.5% VAP Black: 55.0%
 - **District 7** represents the West Bank of Orleans Parish, parts of Jefferson Parish and Belle Chasse.
 - VAP Minority: 68.5% VAP Black: 50.1%
 - **District 39** represents the northern, Caddo Parish suburbs of Shreveport.
 - VAP Minority: 66.7% VAP Black: 61.6%
 - **District 14** represents the inner neighborhoods of Baton Rouge.
 - VAP Minority: 66.1% VAP Black: 55.4%
 - **District 4** represents Lakeview, Mid-City, Gentilly, The French Quarter and New Orleans East in Orleans parish.
 - VAP Minority: 62.3% VAP Black: 53.4%
 - **District 29** represents historically African American communities between Alexandria, Natchitoches and Ruston.
 - VAP Minority: 61.6% VAP Black: 55.9%
 - **District 8** represents Harvey, Marrero and much of the land around the lower Mississippi River.
 - VAP Minority: 60.7% VAP Black: 42.3%
 - **District 24** represents the northern suburbs of Lafayette including Opelousas.
 - VAP Minority: 59.6% VAP Black: 54.3%
 - **District 34** represents Mississippi Delta communities across from Natchez and Vicksburg.
 - VAP Minority: 59.0% VAP Black: 54.4%
 - **District 5** represents Uptown New Orleans, the Treme and parts of the 7th Ward in Orleans Parish.
 - VAP Minority: 57.6% VAP Black: 45.2%

- **District 2** represents historically African American river communities between Baton Rouge and Laplace.
 - VAP Minority: 57.4% VAP Black: 51.1%
- **District 19** represents Laplace and eastern pieces of Jefferson Parish.
 - VAP Minority: 55.0% VAP Black: 42.5%
- The 64 parishes are split in the following ways. Those with asterisks have populations greater than 119,430:
 - Acadia Parish: **Districts 25, 26, 28**

 - 220670003-1, 22067000013, 22067000021
 - The main goal of this plan is to keep incumbents and extant boundaries in place, move lines seldomly to balance population, prioritize parish and natural lines and increase the number of competitive seats for both parties.

A Proposed Plan for Louisiana Senate Districts

Gomez Proposed 1A

Louisiana Senate Proposed Gomez 1A

By Ryan Gomez, mid-Jan. 2022

The Plan

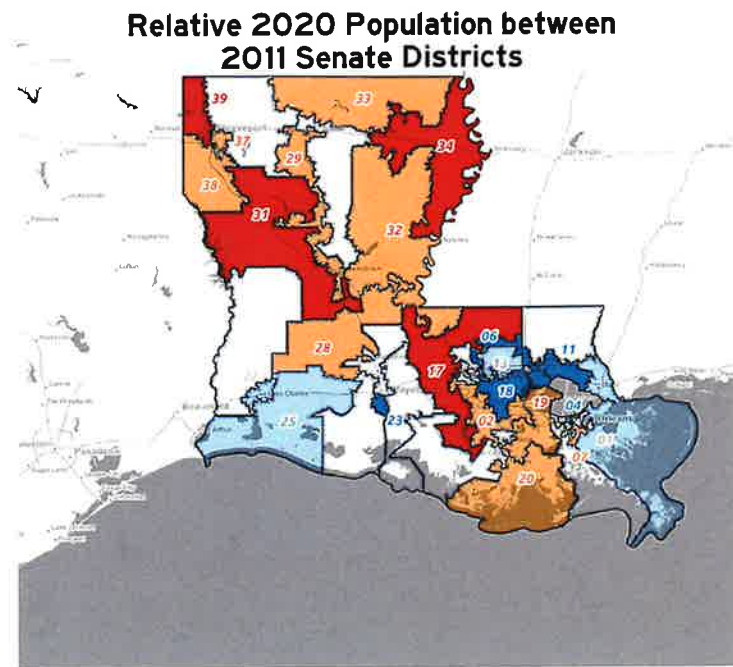

This plan is published at the following link on davesredistricting.org under the name Senate Gomez Proposed 1A. A block equivalency file is attached with this report or can be generated using the same link below.

<https://davesredistricting.org/join/4516dafc-fed0-4278-97d3-d4a422c7516f>

Principles

Plan 1A is the first of a collection of three plans. It was designed with the following aims.

- Districts must be within 5% of 119,430 target
- Old district lines must be preserved, if possible.
- The use of parish lines is encouraged
- The number of Black and/or Minority VAP majority districts should grow
- The number of Black and/or Minority districts, where group VAP is over 40%, should grow
- Competitive districts are encouraged
- Inclusion of previous incumbents are encouraged
- Precincts are split, only if necessary, on highways or natural features.

A look at the relative population between districts drawn in 2011 illustrates the large growth of population between Baton Rouge and the North Shore versus Districts in North and Central Louisiana.

Demographic Balance

This collection of plans seeks to increase minority representation. This plan identifies competitive seats as those with a voting age population between 50-60% and opportunity seats as those between (40-50%.) This plan...

- Unwinds the packed African American community populations in **Districts 3, 7 and 39.**
- Creates opportunity districts for African Americans in **Districts 8 and 19**, such that they are overall majority minority seats.
- Balances population in **District 38** such that it is both an African American and Minority opportunity district.
- Creates a new minority opportunity in **District 17** and consolidates Native Americans to create a minority opportunity **District 21.**

Minority Percentage

Districts ranked by minority percentage.

	Old Plan	Plan 1A
Above 70%	15, 3, 7, 39	15
60-70%	14, 34, 4, 29 <i>Seats above this threshold may indicate packing</i>	3, 7, 39, 4, 14, 29, 8*
50-60%	24, 2, 5, 8 <i>These seats are considered competitive</i>	24, 34*, 5, 2, 19*
40-50%	38, 19, 27 <i>These seats present opportunities for competition</i>	38*, 27, 17*, 21*
30-40%	17, 10, 6, 21, 1, 22, 28, 16, 33, 12, 9, 31, 36	10, 16, 22, 37, 1, 33, 9, 12, 36, 31, 28
Under 30%	20, 18, 32, 26, 23, 25, 30, 35, 11, 13	32, 6, 35, 13, 26, 18, 23, 30, 20, 25, 11

Note that African-American totals may differ from Minority Totals

Af-Am. 40-50%	Af-Am. 40-50%
------------------	------------------

In Summary: Plan 1A adds two new majority districts, and one more opportunity district for minorities. Of these seats, two also represent the addition for African American opportunity districts.

Description of Changes

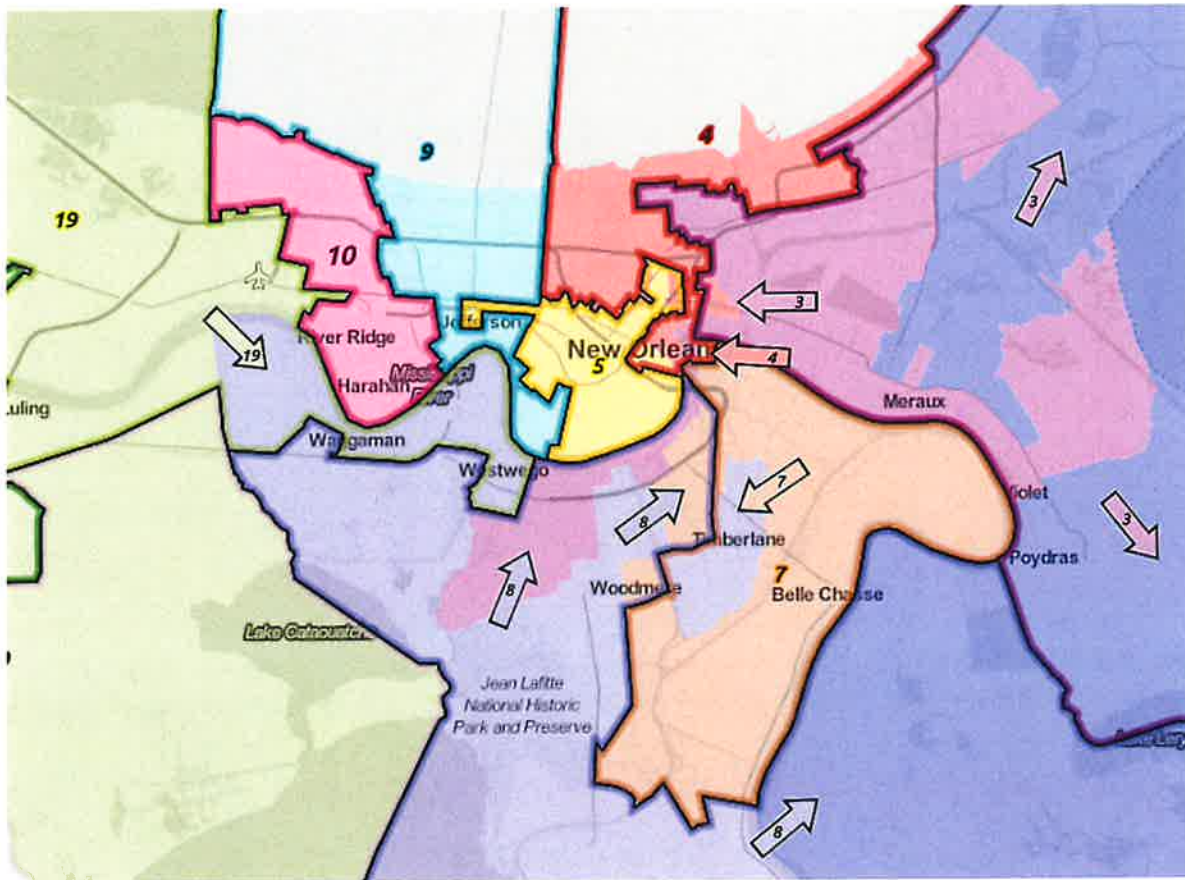

What follows is a description of the changes between the old plan and Plan 1A. The map above shows Plan 1A's proposed assignments tinted by district and depicted with pink parish lines.

To balance population across the whole state, we must identify that the North Shore has the most extra people and that we must carefully manage a chain reaction in order to increase population totals in North and Central Louisiana districts.

The tints reflect Plan 1A assignments and boundaries displayed with parish lines. While **Districts 21, 22, 24 and 26** were mostly balanced in population, it must both absorb and grant population from other districts as it sits between and around both high growth areas and low growth areas. **District 17** is also an important link between over and underpopulated regions.

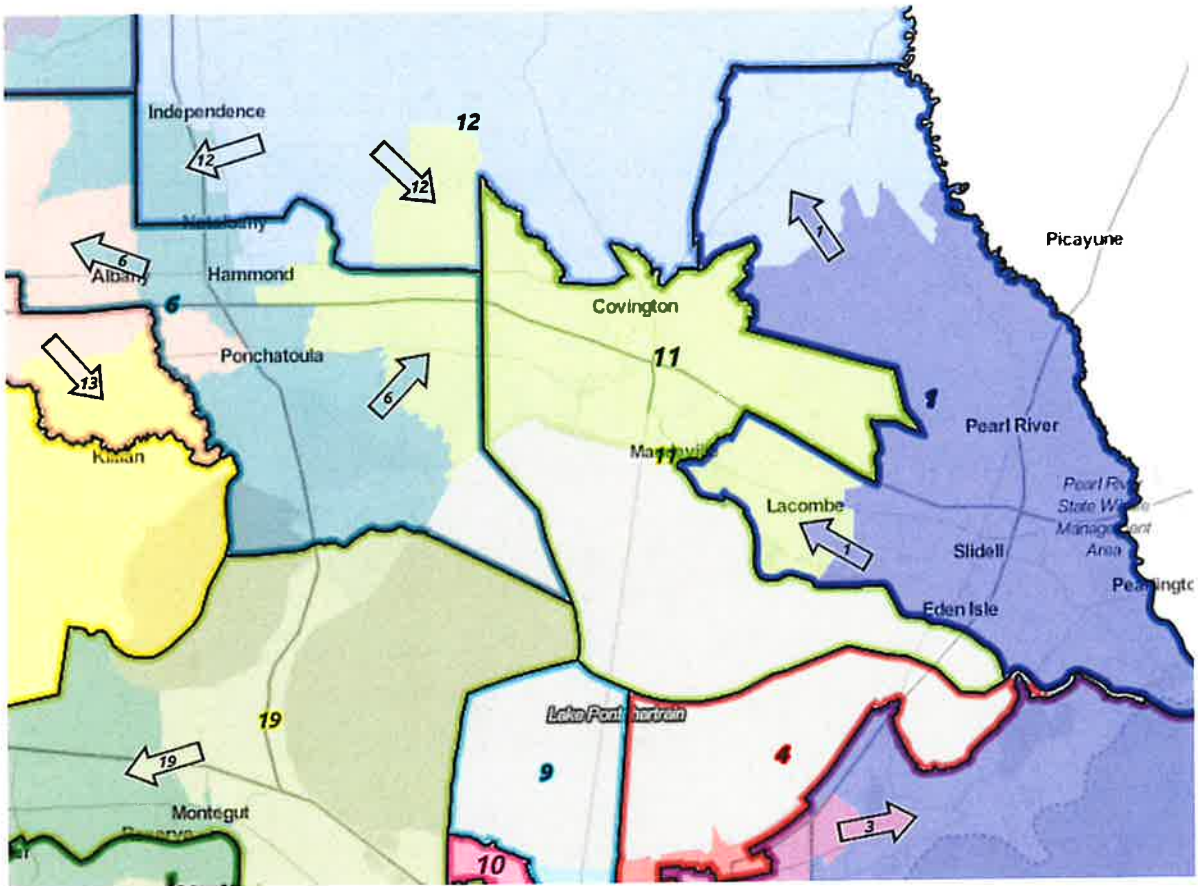

- In the maps below, the land is tinted with colors of 2011 district areas, lines of proposed 1A districts and arrows that show the changes that 1A proposes.

New Orleans

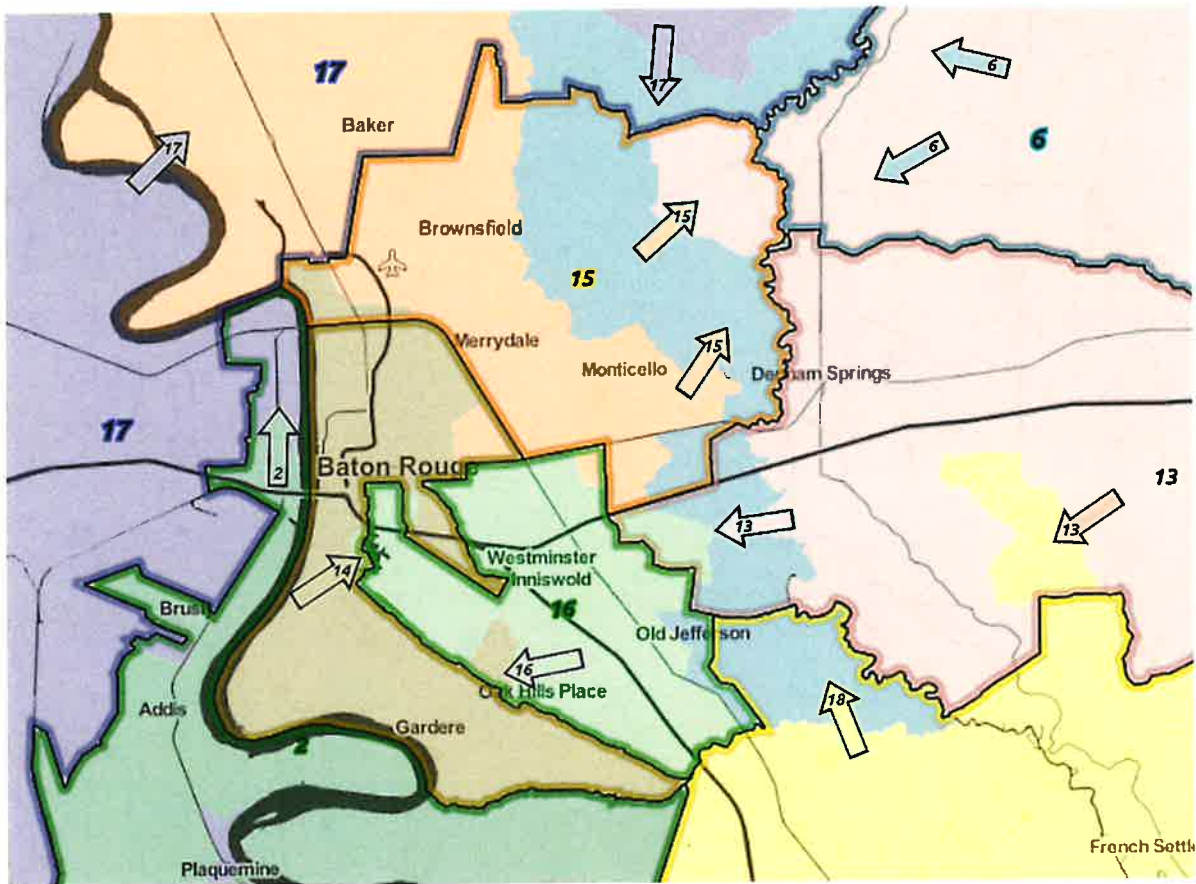

- **District 1** no longer crosses the Rigolets. Thus, **District 3** now contains all of St. Bernard Parish.
- **District 3** loses its strange panhandle to **District 8**, which also acquires the East Bank of Plaquemines Parish.
- Population balances out between **District 7** and **District 8** in a more compact district on the West Bank.
- Jefferson Parish now commands more of **District 19**'s attention as it now contains Avondale and Westwego on the West Bank.
- **District 5** changes little, only losing the CBD to **District 4**.
- **Districts 9 and 10** are identical.

The North Shore

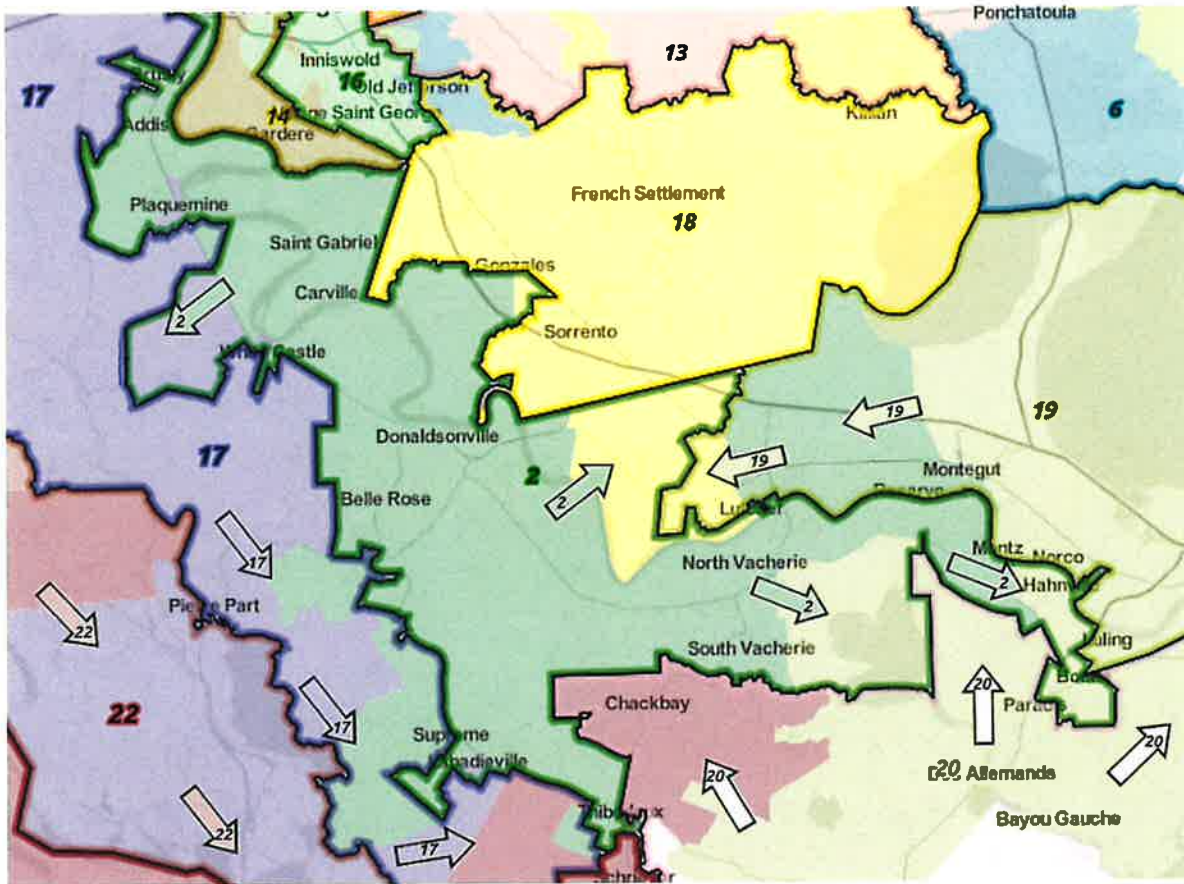

- Plan 1A's main aim is to remove the strange gerrymander of **District 6**. It now shares Livingston Parish with **District 13** (which takes a piece of District 6's old E.B.R. Western panhandle).
- **District 11** has the most surplus people of any district. If we restrict it to St. Tammany Parish and give away Lacombe, it then fits within the ideal size.
- Having abandoned the South Shore, **District 1** makes up this population with Lacombe and other parts of St. Tammany parish.
- **District 12** expands into more areas of Tangipahoa Parish.
- Laplace is now mostly consolidated within **District 19**.

Baton Rouge

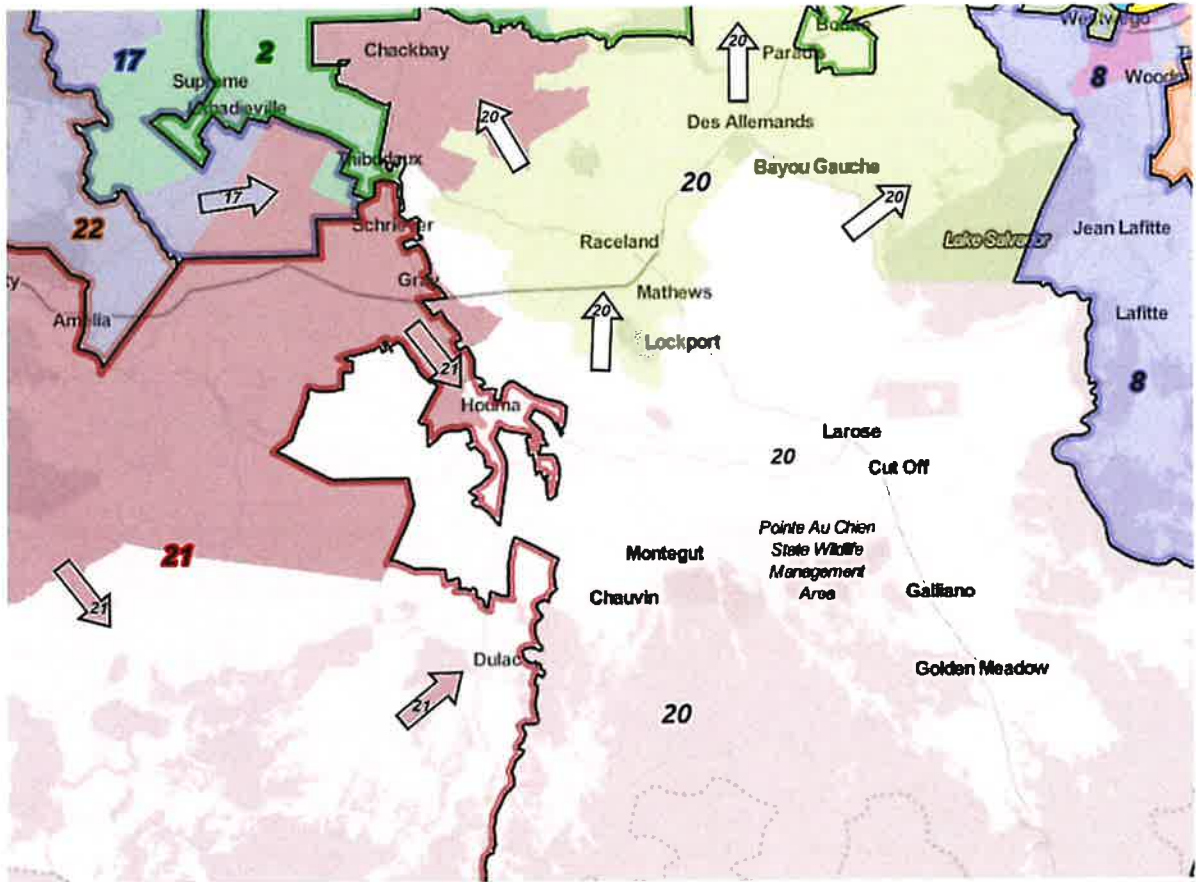

- **District 6's** western half is now ready to be divided between other suburban districts, like **Districts 13 and 18** which cross into East Baton Rouge Parish.
- **Districts 2 and 17** are among the least populated districts. While they must grow, they must grow carefully to preserve their demographic makeup. Thus, District 17 must move into parts of **District 15** and **District 2** follows behind.
- **Districts 14 and 16** mostly trade parcels to create compact, even districts. In contrast to Plans 2A and 3A, it is difficult to maintain the old patchwork boundaries in Plan 1A.
- By history and by spatial distribution, **District 15's** heavy population of African American makes it a tempting target for packing. In this plan, it still retains its concentrated character but is now responsible for old pieces of **District 6**.

The River Parishes

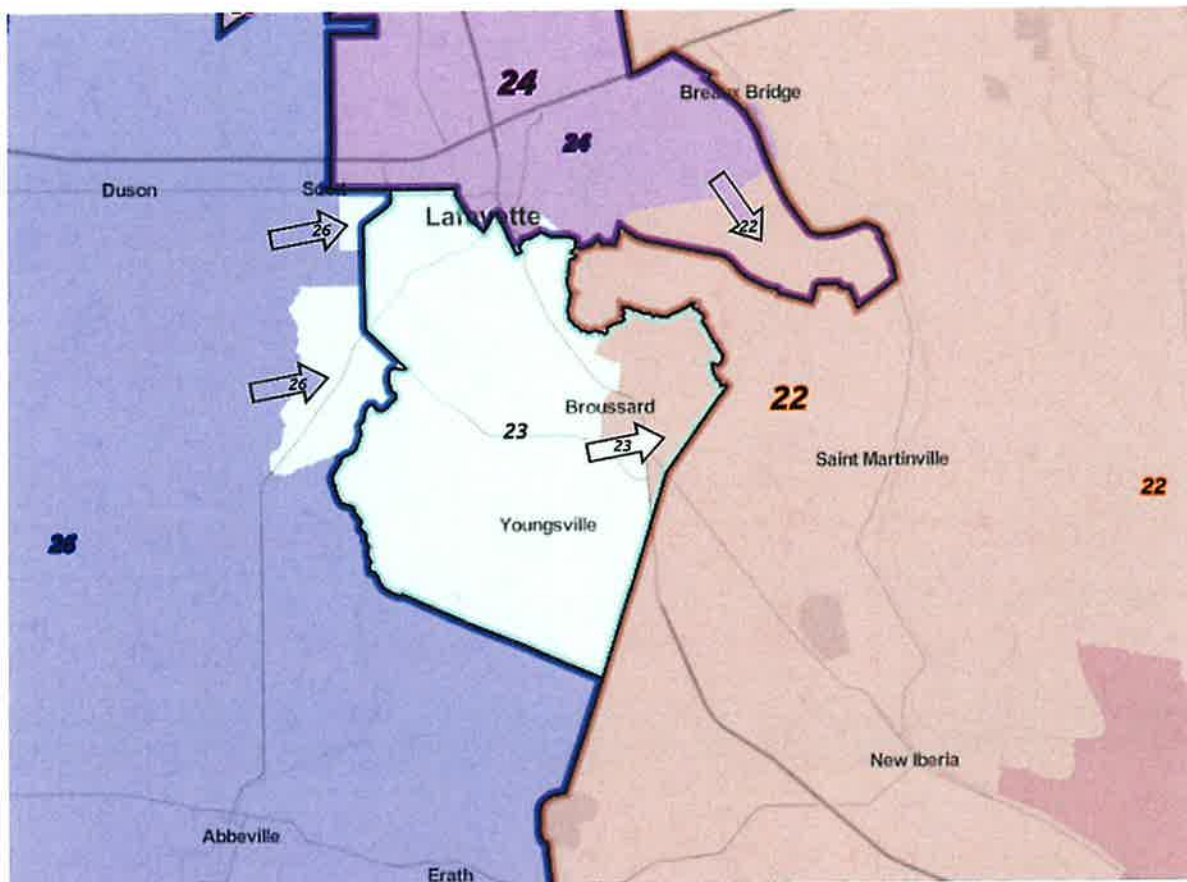

- Given **District 2** and **District 17**'s small sizes, in order to keep together their unique communities of interest, they have both carefully selected different communities between the Mississippi and Atchafalaya river. It is this hunger for new population that has promoted the migration of its neighboring districts of **19**, **20**, **22** and **15**.
- Plan 3A removes District 2 from the River area and in exchange, proposes different majority-minority districts to represent this area.

Houma and Thibodeaux

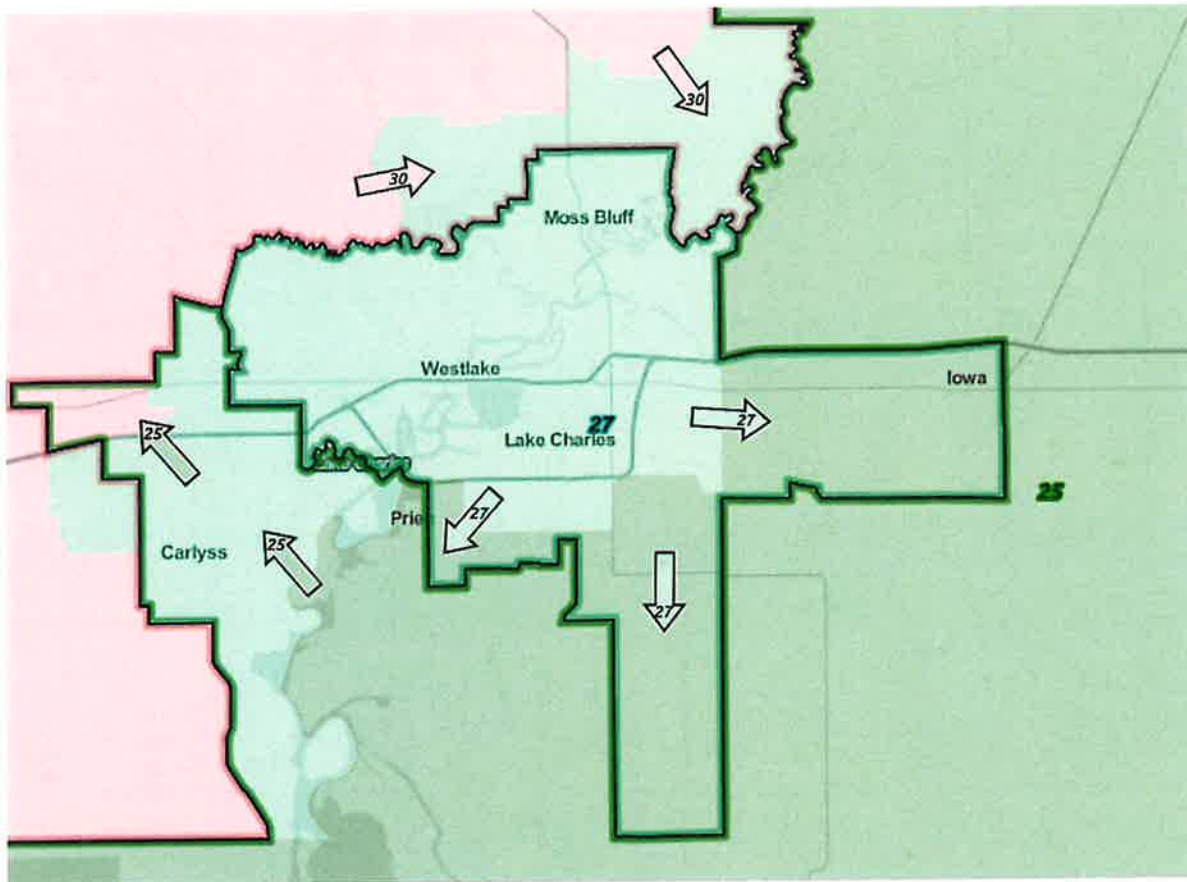

- As District 19 concentrates more of its population in Jefferson Parish, District 20 is able to move into 19's southern bayous, even picking up 21's former panhandle.
- District 21, having left Iberia Parish, carefully selects communities to become a unique place. It will have the highest concentration of Native Americans within a district, even if that concentration is 5%. That's enough, with carefully paired communities, to create an example of a Republican minority opportunity district.
- The St. Martin Parish exclave is reunited with its main area in District 22.
- Not pictured, but Grand Isle is kept with the rest of Jefferson Parish in District 8 through Barataria Bay.

Lafayette

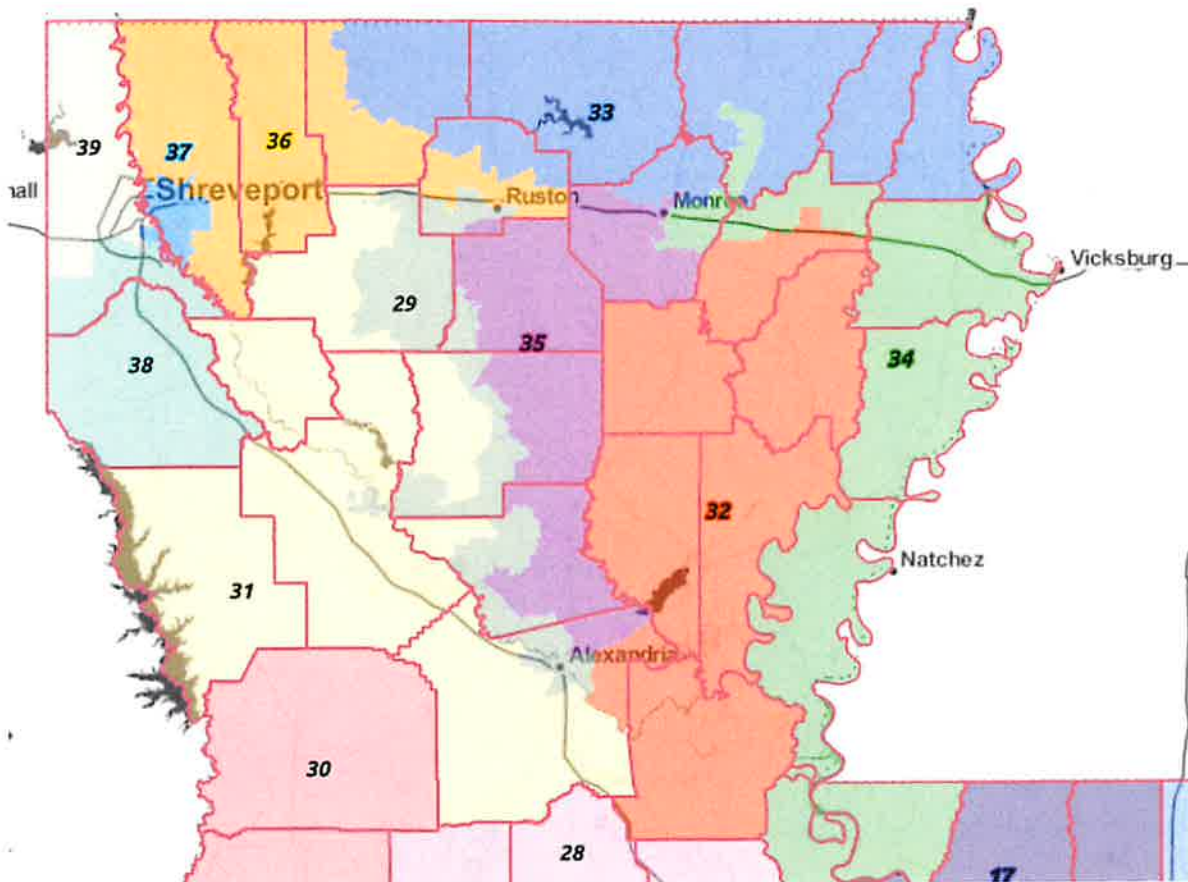

- The Southern Suburbs of Lafayette are among the fastest growing in the state. Plan 1A makes careful adjustments to **District 23's** boundaries such that it is defined by simple highways, rivers and parish lines. **District 26** absorbs most of this population.
- Much of **District 24** and **District 22** in St. Landry's Parish must be ceded to **District 28**. Since many of the districts to the North are underpopulated, slack is needed in the chain between these districts, **District 28**, **District 32** and beyond.
- **District 24** remains majority African American.

Lake Charles

Since rebalancing requires adjusting districts from the South East to the North West, the parishes in the heel of Louisiana are mostly left untouched. Fortunately, **Districts 25, 27 and 30** are mostly balanced between themselves and adjusting between these districts is easy. Though it will always lean rightward, Plan 1A chooses the most mathematically competitive district possible around Lake Charles.

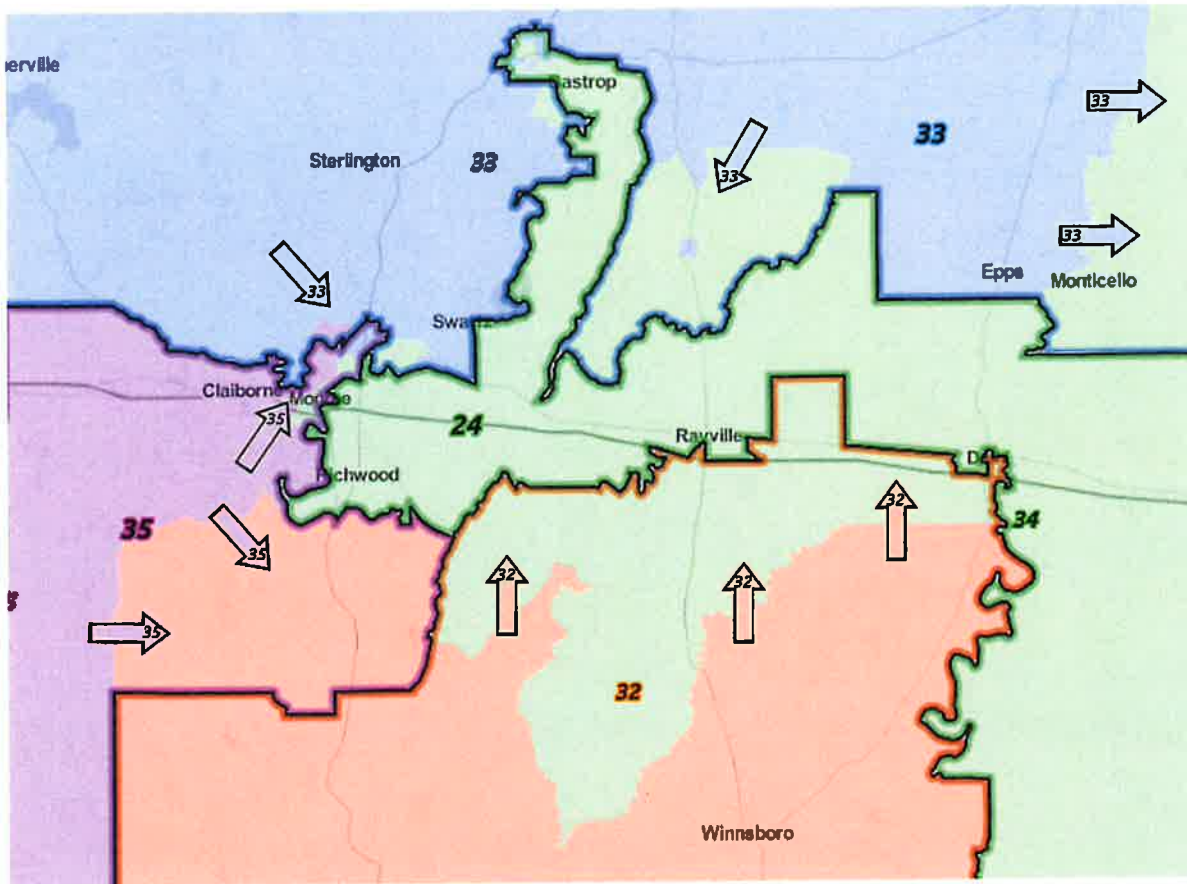

North and Central Louisiana

Here's another summary that focuses on North and Central Louisiana. The colors on this map represent Plan 1A assignments and are depicted with parish lines.

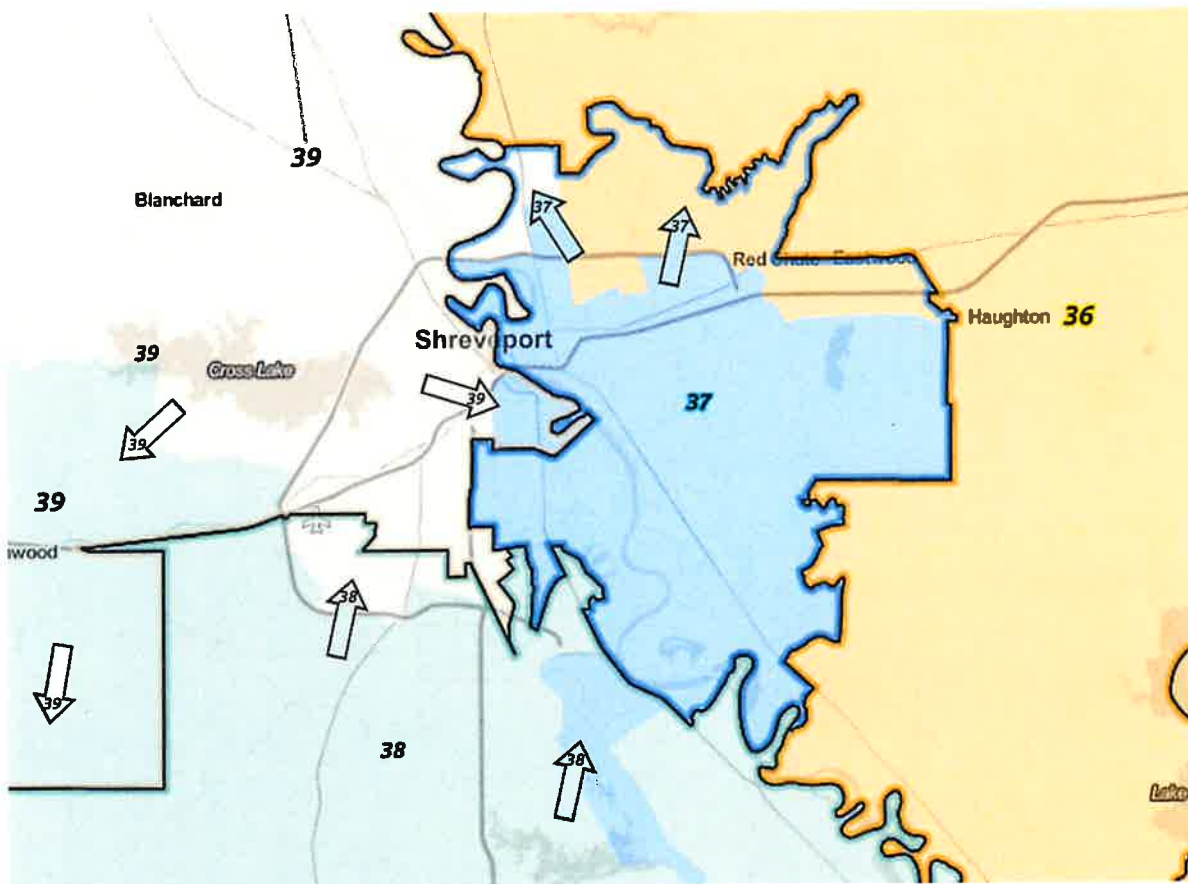

- When districts are underpopulated, they must expand to absorb more people. Since most growth occurred around the North Shore, **Districts 34 and 32** must expand in this direction. To grow, **District 34** takes much of Pointe Coupee and West Feliciana Parishes. (**District 17** keeps New Roads.)
- **District 32** takes Avoyelles parish from **District 28**.
- With these abundant populations, these swollen districts can cede people to underpopulated parishes like **Districts 31, 33, 35** and beyond. For instance, **District 34** cedes East Carroll Parish to **District 33**.
- This plan is careful to maintain majority-Black **Districts 34, 29** and identifies other opportunities for representation near Shreveport. Adjustments regarding communities of interests around **District 29**, are made near Alexandria and throughout the region.
- **District 31** benefits from these adjustments as well as expansion into Rapides Parish. Plan 2A describes a strategy where we move District 31 into the North Shore.

Monroe

Here's some detail around Monroe to show the dynamics between **Districts 32, 33, 34 and 35**. Having extended further south into former **District 17** territory, **District 34** now has too many people. It gives away much to **District 32 and District 33**, which allow them to share their population with districts like **29, 36** and ultimately **37, 38 and 39** in Shreveport.

Shreveport

- Though not pictured, it's vital to understand that in this plan, **District 36** takes over the area that was once part of District 35 around Grambling and Ruston. (**District 29** does not change in this area.)
- This allows for the Northern Suburbs of Shreveport to be available for **District 37** to expand.
- Then, this allows **District 39** and **District 38** to expand into these areas.
- This plan then creates an African American opportunity district in **38** by choosing communities carefully to reach a 40% threshold.

Thank you for reviewing my plan. I would be honored by its adoption.
