Good morning,

My name is Ryan Gomez and it would be my honor to submit a proposed State Senate plan for this current redistricting cycle. Currently, I am a geospatial data scientist who works on demography and redistricting nationally. I feel very blessed that I am able to do this from my home in New Orleans.

This is the second of three plans.

This plan aims to move District 31 from an underpopulated to a fast growing area of the state. This trick makes it much easier to balance every other seat to about the same locations and incumbents. Whole parishes, old district lines and natural boundaries like highways and rivers are given the greatest priority. A good district is one that is competitive and easily described in a sentence or two.

I hope this is the correct way to submit descriptions and block equivalent CSV assignment files. This map was originally published at <https://davesredistricting.org/join/704eebd7-aef3-4364-92bf-658da0f7ed0f>.

Thank you for your attention. I'm sure my plans will save you effort and acrimony. It would mean the world to me if these plans were adopted.

Warm regards,
Ryan Gomez

 - Caddo Parish 23, 35 between **Districts 38 and 39**
 - 22017000023, 22017000035
 - **Final Observations:** The main goal of this plan is to keep incumbents and extant boundaries in place except for *moving seat 31 across the state to the fast growing North Shore*. Otherwise, we move lines seldomly to balance population, prioritize parish and natural lines and increase the number of competitive seats for both parties.

A Proposed Plan for Louisiana Senate Districts

Gomez Proposed 2A

January, 2022

Louisiana Senate Proposed Gomez 2A

By Ryan Gomez, mid-Jan. 2022

The Plan

This plan is published at the following link on davesredistricting.org under the name Senate Gomez Proposed 2A. A block equivalency file is attached with this report or can be generated using the same link below.

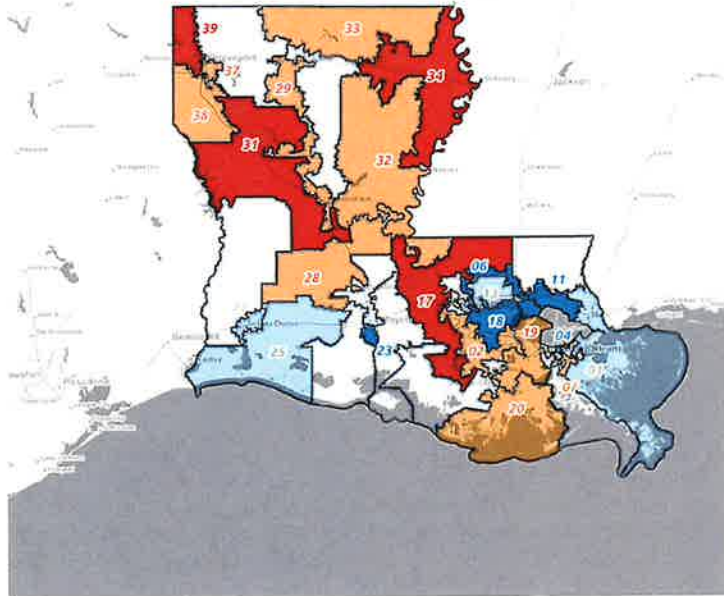

<https://davesredistricting.org/join/704eebd7-aef3-4364-92bf-658da0f7ed0f>

Principles

Plan 2A is the second of a collection of three plans. In addition to the following principles inherited from Plan 1A, its **main goal is to move low population District 31 to high growth east Baton Rouge Suburbs.**

- Districts must be within 5% of 119,430 target
- Old district lines must be preserved, if possible.
- The use of parish lines is encouraged
- The number of Black and/or Minority VAP majority districts should grow
- The number of Black and/or Minority districts, where group VAP is over 40%, should grow
- Competitive districts are encouraged
- Inclusion of previous incumbents are encouraged
- Precincts are split, only if necessary, on highways or natural features.

**Relative 2020 Population between
2011 Senate Districts**

A look at the relative population between districts drawn in 2011 illustrates the large growth of population between Baton Rouge and the North Shore versus Districts in North and Central Louisiana.

Demographic Balance

This collection of plans seeks to increase minority representation. This plan identifies competitive seats as those with a voting age population between 50-60% and opportunity seats as those between (40-50%.) This plan...

- Increases the total of **Minority Majority districts by two** with the elevation of 19 and 31
- Unwinds the packed African American community populations in **Districts 4, 7, 15 and 39.**
- Creates opportunity districts for African Americans in **Districts 8 and 19**, such that they are overall majority minority seats.
- Balances population in **District 38** such that it is both an African American and Minority opportunity district.
- Creates a new minority opportunity in **District 17** and consolidates Native Americans to create a minority opportunity **District 21.**

Minority Percentage

Districts ranked by minority percentage.

	Old Plan	Plan 2A

60-70%	14, 34, 4, 29 <i>Seats above this threshold may indicate packing</i>	7, 14, 15, 34, 39, 29
50-60%	24, 2, 5, 8 <i>These seats are considered competitive</i>	4*, 24, 19*, 2, 8*, 31*, 5
40-50%	38, 19, 27 <i>These seats present opportunities for competition</i>	38*, 27, 21*

Note that African-American totals may differ from Minority Totals

Af.-Am.
40-50%

Af.-Am.
40-50%

In Summary: Plan 2A adds two Minority Majority seats, 19 and 31, both of which are also African American opportunity districts. While the number of African American majority seats remains the same, new opportunity seats are created in 8 and 38 resulting in four new total African American opportunity seats.

Description of Changes

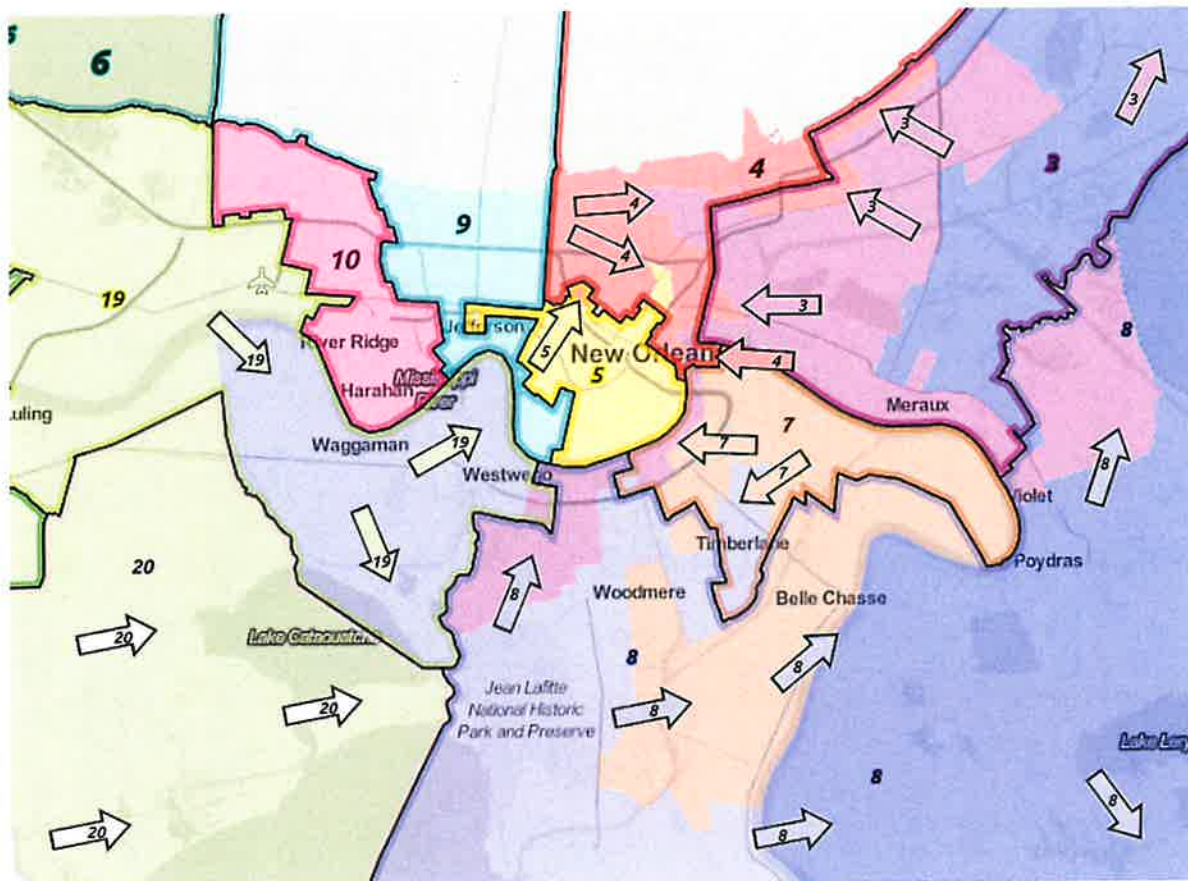

What follows is a description of the changes between the old plan and Plan 2A. The map above shows Plan2A's proposed assignments tinted by district and depicted with pink parish lines.

To balance population across the whole state, we must identify that the North Shore has the most extra people. To that end, **Plan 2A moves Seat 31 from the underpopulated areas by the Toledo Bend Reservoir to the fast growing suburbs of Baton Rouge.** We must then carefully manage growing the areas of North and Central Louisiana districts and the accompanying contraction of North Shore district areas, all while balancing population throughout.

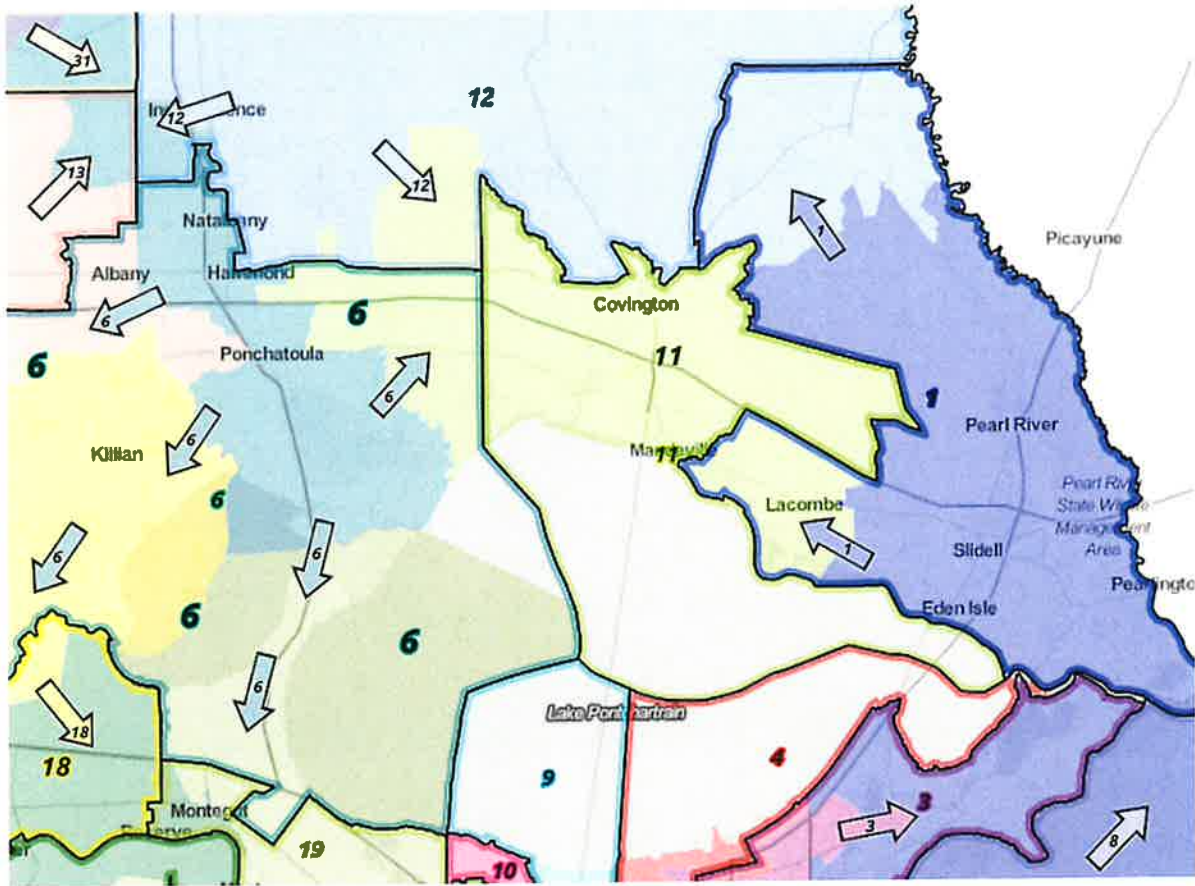

- In the maps below, the land is tinted with colors of 2011 district areas, lines of proposed 2A districts and arrows that show the changes that 1A proposes.

New Orleans

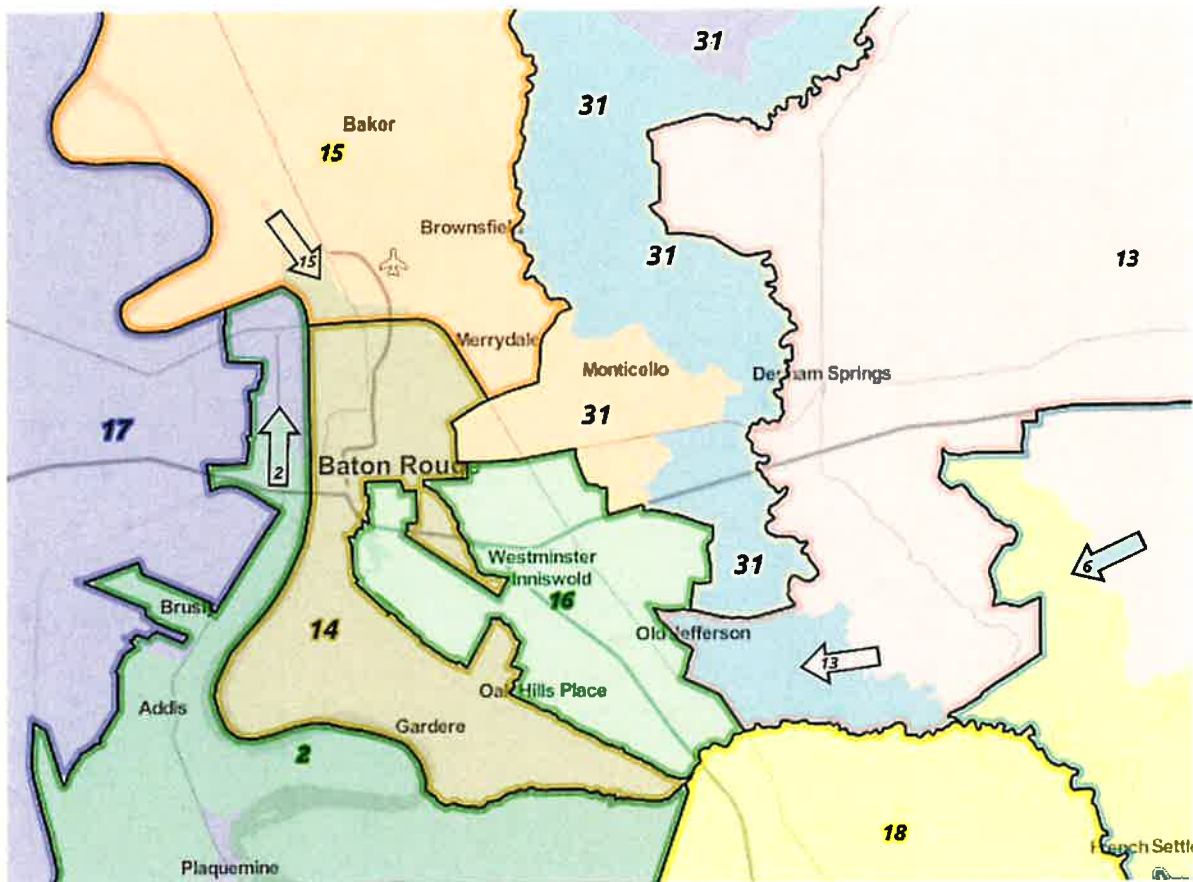

- The lines between District 3 and 4 have been simplified as much as possible to follow main roads and canals.
- **District 1** no longer crosses the Rigolets. Thus, **District 3** and **District 8** now represent St. Bernard Parish.
- **District 3** loses its strange panhandle to **District 7** as it grows to find population. It jettisons Plaquemines Parish and represents a compact area in its corner of the West Bank.
- **District 8** represents Harvey and similar industrial communities in all of Plaquemines parish and lower St. Bernard Parishes.
- Jefferson Parish now commands more of **District 19**'s attention as it now contains Avondale and Westwego on the West Bank.
- **District 4** acquires the entire French Quarter and annexes Hollygrove.
- **Districts 9 and 10** are identical.

The North Shore

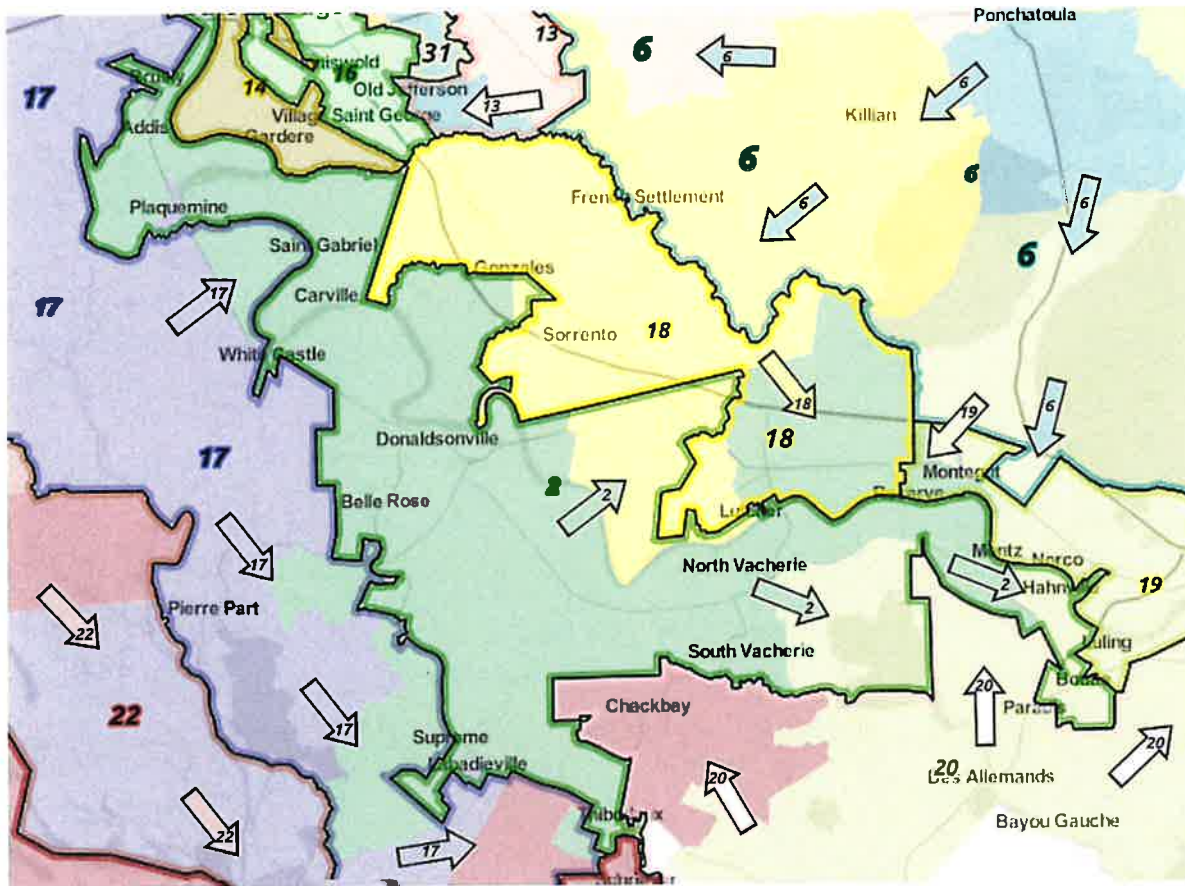

- Plan 2A's main aim is to remove the strange gerrymander of **District 6**. Its Western half is now the core of **District 31**. The new District 6 will fill out in its corner of Tangipahoa Parish and seeps into Livingston Parish with **District 13**.
- **District 11** has the most surplus people of any district. If we restrict it to St. Tammany Parish and give away Lacombe, it then fits within the ideal size.
- Having abandoned the South Shore, **District 1** makes up this population with Lacombe and other parts of St. Tammany parish.
- **District 12** expands into more areas of Tangipahoa Parish.
- Plan 1B's main aim is to remove the strange gerrymander of **District 6**. It now shares Livingston Parish with **District 13** (which takes a piece of District 6's old E.B.R. Western panhandle).
- Laplace is now mostly consolidated within **District 19**.

Baton Rouge

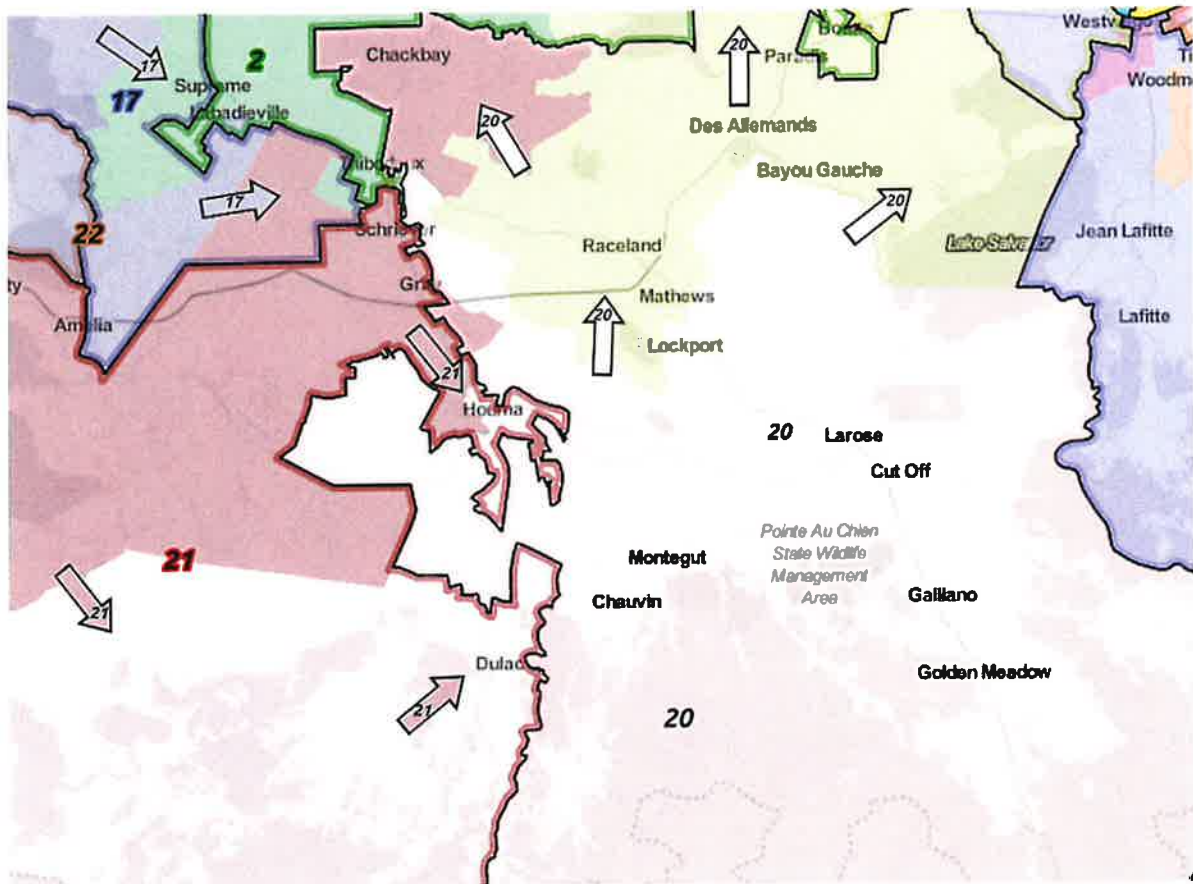

- **District 31** arrives. It takes most of **District 6**'s western half, with **District 13**. With some population from **District 15** and the entirety of St. Helena Parish, this seat becomes a Minority-Majority and African American Opportunity seat.
- **District 15** retains its majority African American population while softening the packed votes by giving some people away to new **District 31** and representing both East and West Feliciana Parishes. Prison populations in this area were also kept in mind when creating this district.
- **District 16** doesn't change at all while **District 14** recedes from a few of its northern territories.
- Plan 1A tries to redistrict in this area with current seats, but requires more intricate changes to boundary lines to achieve this feat. Plan 2A moves **District 31** from across the state and pairs the old western District 6 end with St. Helena Parish.

The River Parishes

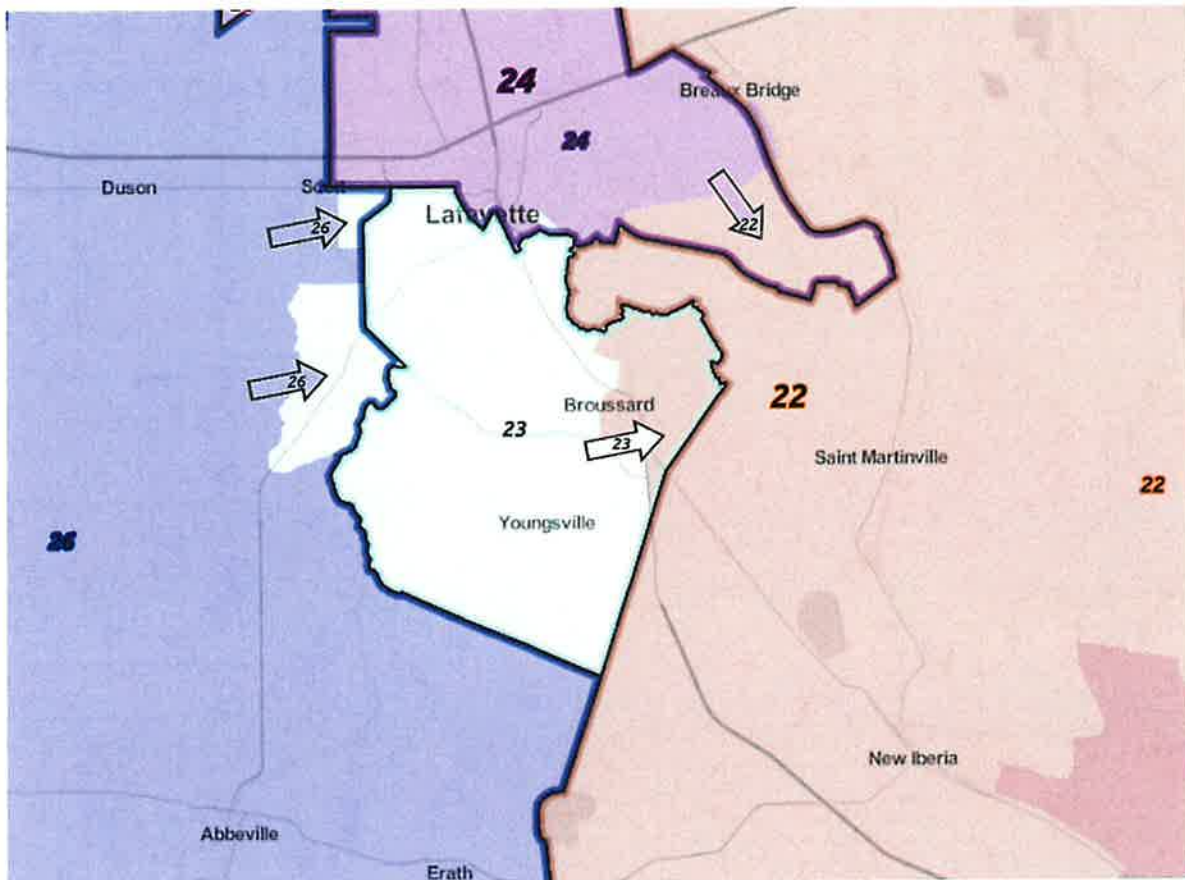

- Given **District 2** and **District 17**'s small sizes, in order to keep together their unique communities of interest, they have both carefully selected different communities between the Mississippi and Atchafalaya river.
- The expansion of **District 6** requires that **District 18** departs Livingston Parish and selects more populated areas by the river.
- As **District 19** takes on more of a Jefferson Parish character, **District 20** receives population around Des Allemands.
- Plan 3A removes District 2 from the River area and in exchange, proposes different majority-minority districts to represent this area.

Houma and Thibodeaux

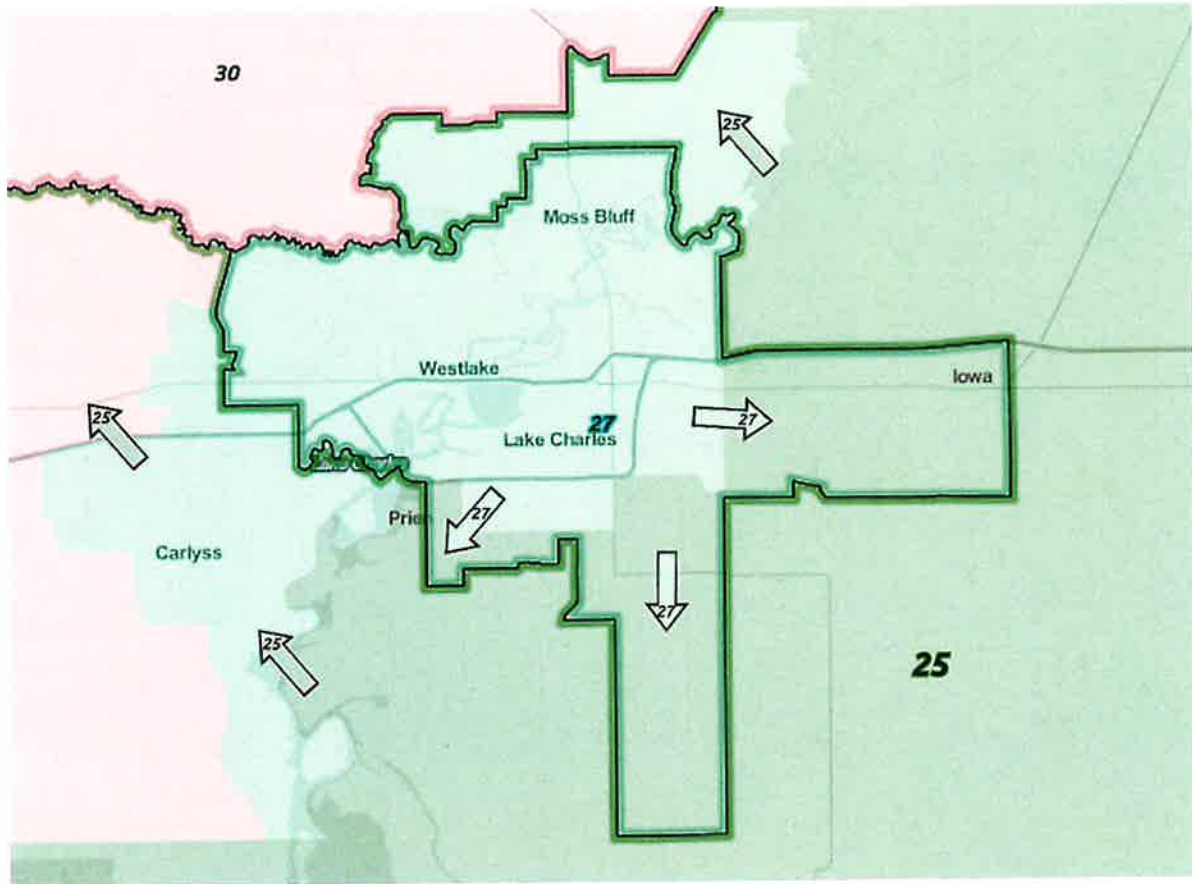

- As District 19 concentrates more of its population in Jefferson Parish, **District 20** is able to move into 19's southern bayous, even picking up 21's former panhandle.
- **District 21**, having left Iberia Parish, carefully selects communities to become a unique place. It will have the highest concentration of Native Americans within a district, even if that concentration is 5%. That's enough, with carefully paired communities, to create an example of a Republican minority opportunity district.
- The St. Martin Parish exclave is reunited with its main area in **District 22**.
- Not pictured, but Grand Isle is kept with the rest of Jefferson Parish in **District 8** through Barataria Bay.

Lafayette

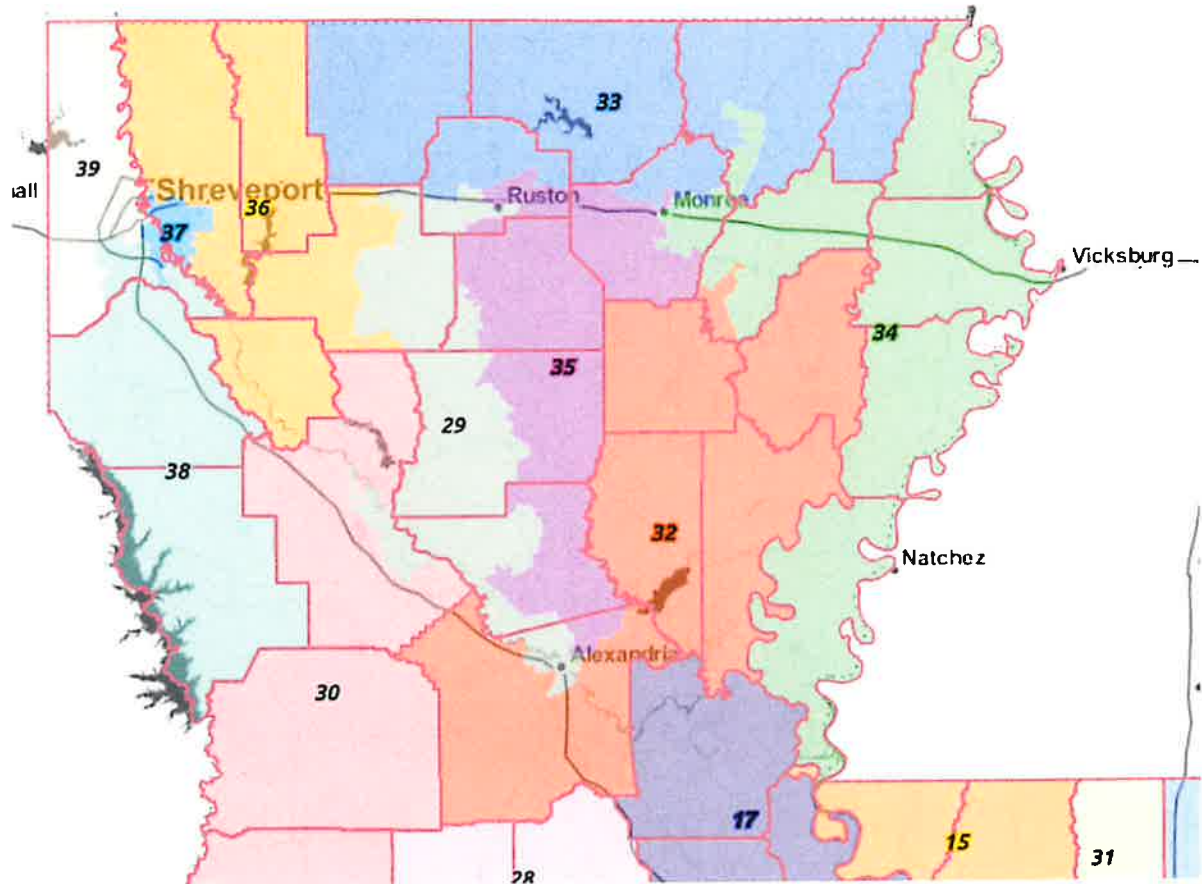

- The Southern Suburbs of Lafayette are among the fastest growing in the state. Plan 2A makes careful adjustments to **District 23's** boundaries such that it is defined by simple highways, rivers and parish lines. **District 26** absorbs most of this population.
- Much of **District 24** and **District 22** in St. Landry's Parish must be ceded to **District 28**. Since many of the districts to the North are underpopulated, slack is needed in the chain between these districts, **District 28**, **District 32** and beyond.
- **District 24** remains majority African American.

Lake Charles

- Since **District 31** was moved, **District 30** must now reach up and take its place. This leaves a better opportunity for **District 25** to represent more of the Lake Charles suburbs.
- Though it will always lean rightward, Plan 2A chooses the most mathematically competitive district, **District 27**, possible around Lake Charles.

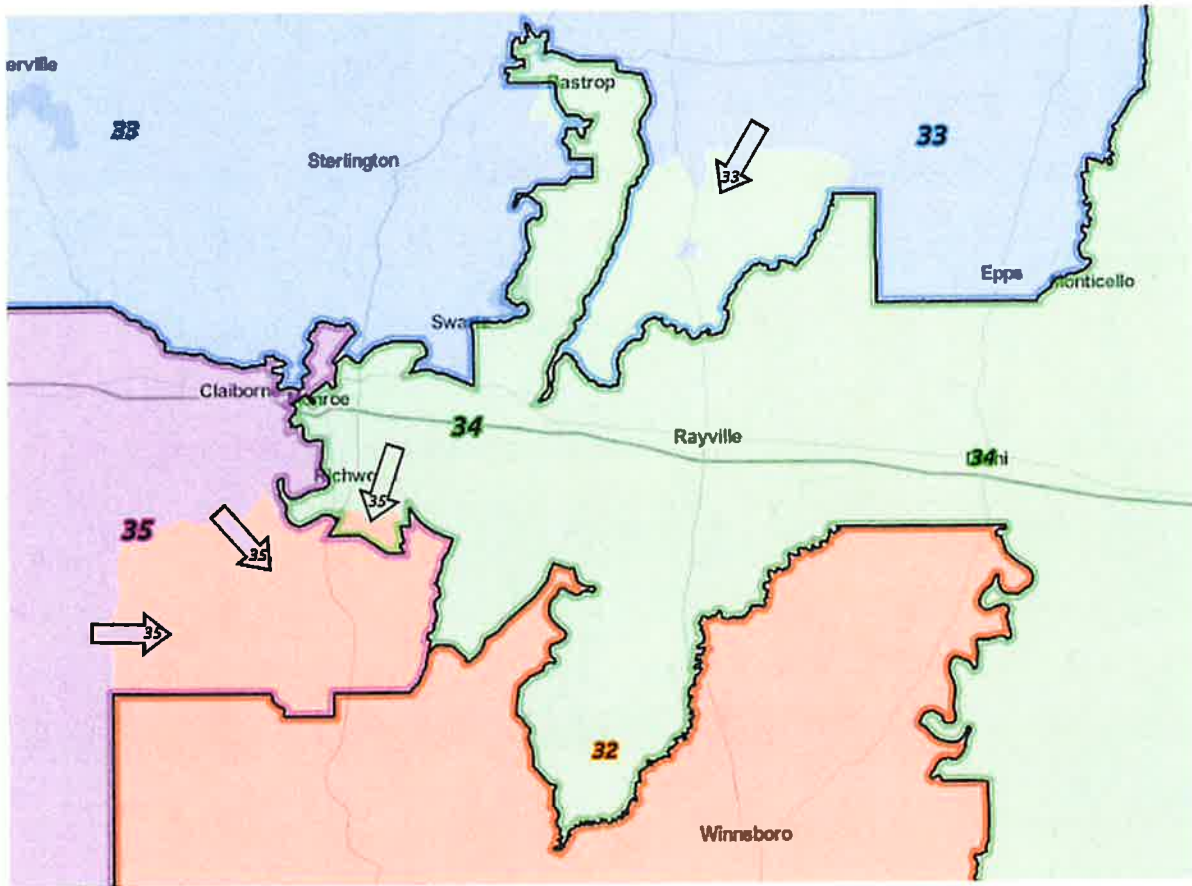

North and Central Louisiana

Here's another summary that focuses on North and Central Louisiana. The colors on this map represent Plan 2A assignments and are depicted with parish lines.

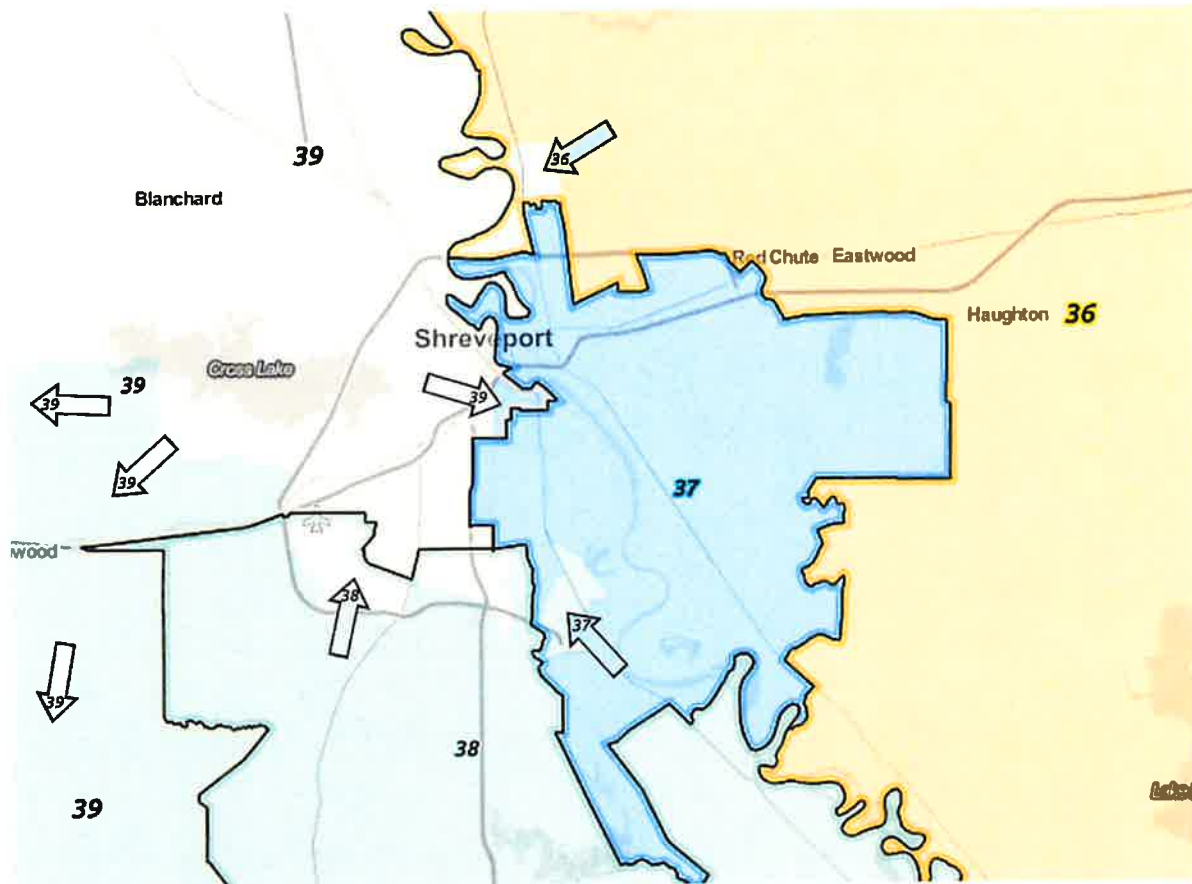

- The distinguishing characteristic of Plan 2A is the moving of **District 31** away from Western Louisiana. Thus, **Districts 29, 30, 32, 36 and 38** must fill the gap. Each of these districts were mostly underpopulated. Thus, this expansion is necessary and welcome.
- **District 32** expands into Rapides Parish, **District 30** takes the rural areas of Natchitoches, **District 38** takes Sabine parish and **District 36** adopts parts of Bienville Parish and the whole of Red River Parish.
- Both **District 29 and 34** remain majority African American and expand their territory to convenient parish lines. **District 34** takes the rest of Concordia Parish, **District 29** takes the rest of its side of Winn and Grant Parishes
- **District 28** had migrated its territory south to Acadia Parish, so **District 17** takes all of Avoyelles Parish.
- This plan is careful to maintain majority-Black **District 39** while creating an opportunity district for District 38.

Monroe

Only minor adjustments are needed around Monroe between **Districts 32, 33, 34 and 35**. If population was not made available by the departure of **District 31**, much more intricate jostling would have been required to balance out these four underpopulated districts.

Shreveport

- Though not pictured, it's vital to understand that in this plan, **District 36** takes over Red River Parish from the former **District 31**. This allows **District 33** to take the rest of Claiborne Parish.
- Little change is made between **Districts 29, 33 and 35** around Grambling and Ruston.
- Since Shreveport is relatively dense, little changes go a long way in ensuring that **District 37** has enough population.
- Even though District 38 absorbs Sabine parish, there's so many people in Shreveport that we're still able to create a Minority opportunity district.

Thank you for reviewing my plan. I would be honored by its adoption.
