Good afternoon,

I write to provide my support for a redistricting plan that provides for at least two (2) congressional districts that recognize the provide equal opportunity to participate in the political process. This focus on the redistricting provides all voters in Louisiana the ability to be active in the political process and ensure their voice, through a voting.

I know you are aware of the history behind the call for the redistricting.

My encouragement of intentionality in recognizing that mapping needs to be done in a way ensuring every community is accurately and fairly represented comes from me as a white voter committed to equal opportunity for all.

Thank you for the work and commitment you have to ensuring the voices of Louisiana all have access to this important process.

With appreciation,

Caroline [REDACTED]
